Reasons for seeking appointment (Areas of Interest, Goals, etc.):

As a parent, over the last 8 years I have become both interested and involved in environmental impact, conservation, and waste reduction initiatives. Starting with our own home and extending that to my daughter's education community, I am applying to help Ann Arbor decrease its waste production and carbon footprint, as well as increasing organic compost and use of recycled materials in home/commercial settings. I am passionate, committed, and curious about identifying and deploying sustainable and financially sound solutions. Thank you for your consideration.

Please submit a résumé including your job experience and education along with this application or a detailed letter of intent delineating relevant qualifications.
