Subject: Circle K Alternative Plan

I would like to express my full support of the Alternative Circle K plan. I am a homeowner on Iroquois Place and this topic has, obviously, been of great interest and concern for my neighbors. I believe the placement of the building on the SE corner, the cut on Packard providing better visibility for pedestrians, and having the pumps, parking - and lights- further away from neighboring residents are all critically important and reasonable criteria to support the Alternative Plan. Thank you for requesting feedback from our neighborhood.
