The normal spacing between these shopping districts is approximately 1 mile, and the total land area averages 2 acres. Businesses which might tend to be a nuisance to the immediately surrounding residential development are excluded, even though the goods or services offered might be in the convenience category or classification. The regulations are designed to permit development of the enumerated functions as limited by the standards designed to protect the abutting or surrounding residential land. To these ends, the regulations establish standards comparable to the standards for residential districts resulting in similar area, height and placement regulations.
- (2) *Permitted principal uses.*
 - (a) Any permitted principal use in the R4 multiple-family dwelling districts.

(b) Any permitted principal use in the "O" office district, subject to the regulations of the office district, provided each such use occupies a total gross floor area of not more than 8,000 square feet.

2. The activity shall not be located in any required front, side or rear open space.
3. The activity may be conducted for periods of up to 180 days in any 1 calendar year.
4. Notwithstanding subsections 1. and 2. above:
 - a. Vending machines are permitted if within 10 feet of the principal building.

A property owner who wishes to conduct outdoor sales and displays on his or her private property, as provided for in the Council resolution, shall first apply for and receive a zoning compliance permit by the date designated in the resolution. The conditions and standards contained in the resolution shall be conditions of the zoning compliance permit issued to a property owner. Failure to comply with the conditions set in the resolution shall be a violation of this ordinance section and shall be grounds to revoke all permits granted to the property owner for the duration of the special event identified in the resolution.

Section 4. That Section 5:10.16 (C-1A Campus Business District) in Chapter 55 of Title V of the Code of the City of Ann Arbor be amended as follows:

5:10.16. - C1A campus business district.

(1) *Intent.* This business district is designed primarily to serve as a neighborhood shopping area for the University-oriented population which is concentrated around it, providing goods that are day-to-day needs, specialty shops and recreation. While the primary function of this district is to serve as a neighborhood shopping area for the student/faculty population concentrated around it, it also has a community-wide orientation due to its unique and distinctive commercial function peculiar to university-oriented population. These districts shall be located in close proximity to the central area of the city.

Section 5. That Section 5:10.17 (C1B Community Convenience Center) in Chapter 55 of Title V of the Code of the City of Ann Arbor be amended as follows:

5:10.17. - C1B community convenience center.

(1) *Intent.* A commercial service district designed primarily to serve the needs of the surrounding community. This includes establishments which although they serve primarily a surrounding neighborhood, could also serve a larger trade or service area. These districts tend to create greater environmental stresses than those districts permitted under C1, even though the goods or services offered might be in the convenience category or classification. Most persons entering this district will come by auto and typically park once. The economic welfare of merchandising activities in these districts depends on moderate development of comparison shopping. Office building

activities are compatible with the purpose of the district as long as adequate and convenient automobile parking can be provided for both the office and the retail merchandising activity.

(2) *Permitted principal uses.*

(a) Any principal use permitted under C1 local business district without limitations to floor area or seating capacity.

(b) Enclosed theaters, provided that the total seating capacity of such use does not exceed 600 seats.

(2) *Permitted principal uses.*

(a) Any principal use permitted in the C1 local business district and the C1B community convenience center district.

(b) All commercial uses other than office uses shall not be permitted above the third story.

(3) *Permitted accessory uses.*

(a) Those allowed in the R3 district.

(4) *Special exception uses pursuant to section 5:104.*

(a) *Medical marijuana provisioning centers, subject to section 5:50.1.*

Section 7. That Section 5:10.19 (D1 AND D2 Downtown Districts) in Chapter 55 of Title V of the Code of the City of Ann Arbor be amended as follows:

5:10.19. - D1 and D2 downtown districts.

(1) *Intent.* These districts, in coordination with the downtown character overlay zoning districts, are designed to support the downtown as the city's traditional center. The downtown serves both the region and local residents as a place to live, work, and take advantage of civic, cultural, educational, shopping, and entertainment opportunities. The downtown districts are intended to allow a mixture of land uses, dense urban development, pedestrian orientation, unique residential opportunities, and a compatible and attractive mix of historic and contemporary building design. Development in these districts is designed to be accessible by a variety of modes of transportation.

(a) D1 - Downtown Core District. This district is intended to contain the downtown's greatest concentration of development and serves as a focus for intensive pedestrian use. This district is appropriate for high-density mixed residential, office and commercial development.

(b) D2 - Downtown Interface District. This district is intended to be an area of transition between the Core and surrounding residential neighborhoods. This district is appropriate for medium density residential and mixed-use development.

(2) *Uses of land.*

(a) *Uses in the D1 and D2 districts are allowed in accordance with Table 5:10.19A - Schedule of Uses.* The following key is to be used with the Schedule of Uses:

1. *Permitted uses.* In accordance with section 5:6, these uses are permitted by right in the district. These uses may be mixed within a building, unless otherwise specified in this chapter. Permitted uses are identified with a "P".
2. *Special exception uses.* In accordance with sections 5:6 and 5:104, these uses may be allowed in a district subject to review and approval by the Planning Commission. Special exception uses are identified with an "S."
3. *Prohibited uses.* These uses are not permitted in the district. Prohibited uses are identified with an "X."
4. *Related zoning regulations.* The Schedule of Uses lists additional related zoning regulations that apply to specific uses. This list is not comprehensive and all uses must comply with all applicable laws and regulations.

(b) *Relationship to downtown character overlay zoning districts.* The D1 and D2 downtown zoning districts shall be further regulated by the downtown character overlay zoning districts. Unless otherwise specified in this chapter, regulations identified for both the downtown district and the applicable downtown character overlay zoning district shall apply.

(4) *Parking structures.*

(a) In the D1 district, an off-street parking structure is not permitted at the level of the adjacent street unless separated from the street by a portion of the building that is occupied by a permitted use or uses, with the exception of the portion of a parking structure that provides vehicular or pedestrian access to the street. The permitted use(s) shall be located within the building and have a minimum depth of 25 feet from the exterior of the front wall.

1. On corner lots, this requirement shall apply to lot frontages on primary streets, as defined in section 5:10.20(4). If none of the street frontages is a primary street, an off-street parking structure must be separated from at least 1 street frontage by a portion of the building that is occupied by a permitted use, with the exception of the portion of a parking structure that provides access to the street.

(b) In the D2 district, an off-street parking structure shall be located a minimum of 10 feet from the front lot line at the level of the adjacent street and provide a landscape buffer or screening wall between the building and the front property line.

(c) In the D1 and D2 districts, any wall of an off-street parking structure that abuts a residential zoning district shall contain no openings or be separated from the lot line by a building occupied by a permitted use or uses.

Section 8. That Section 5:10.21 (C2B Business Service District) in Chapter 55 of Title V of the Code of the City of Ann Arbor be amended as follows:

5:10.21. - C2B business service district.

(1) *Intent.* This district is designed to provide for certain types of commercial activities which have functional and economic relationships to a central business or fringe commercial district. Such activities will include wholesale suppliers retail and supply warehouses, motor vehicle major repair and service agencies, carports and other parking establishments, equipment and machinery dealers, building materials dealers, food processing plants, farm and garden supply stores, places of entertainment or recreation, public utility facilities and retail establishments related in a peripheral manner to those of the central business district. In this district the customer may come to the particular establishment either by automobile or as an extension of this CBD pedestrian shopping activity. Since there is little essential interdependence of activities, each establishment can have its own automobile parking area. Good traffic accessibility is essential to this district, particularly for trucks and other freight carriers. The uses permitted, because of their required contact with auto and truck traffic, would be incompatible in the central business district.

(2) *Permitted principal uses.*

- (a) Any principal use permitted in the D1 downtown core district.
- (b) Retail sales that may have service, repair, leasing or rental, or manufacturing facilities in connection therewith, including: new and used automobile dealers; boat and sporting good dealers; mobile home dealers; agricultural implement, garden supply and motorcycle dealers.
- (c) Retail sales, as typically incidental to contractors, in which a workshop is required for successful operation and in which the retail outlet or show room may in fact be an accessory use, such as, but not limited to: plumber, electrician, lighting fixtures, air conditioning and heating (including incidental sheet metal work), radio and television, interior decorator, reupholstery and refinishing, sign painting and awnings.
- (d) Enclosed building for storage and repair of automobiles, trucks and construction equipment; food locker plant (including the cutting and packaging of meat or game, sale at retail, delivery of individual home orders, renting of individual lockers for home-customer storage of food, but excluding slaughtering or eviscerating thereof).
- (e) Wholesaling, warehousing, refrigerated and general storage.
- (f) Veterinary hospitals and kennels.
- (g) Outdoor recreation, such as: miniature golf, golf driving ranges, commercial swimming pools, outdoor theaters and canoe liveries.

(h) Medical marijuana secure transporter, subject to section 5:50.1.

(3) *Special exception uses pursuant to section 5:104.*

(a) A drive-thru facility that is an accessory to a permitted principal use in the C2B business service district, provided that the facility is not located between a street and the principal building, and the vehicular circulation to enter and exit the facility does not impair the general circulation on the site or with pedestrian circulation on and off the site.

(b) Automobile service and filling station and car washes.

(c) Medical marijuana provisioning centers, subject to section 5:50.1.

(4) *Permitted accessory uses.*

(a) Those allowed in the R3 district.

Section 9. That Section 5:10.23 (C3 Fringe Commercial District) in Chapter 55 of Title V of the Code of the City of Ann Arbor be amended as follows:

5:10.23. - C3 fringe commercial district.

(1) *Intent.* The design and regulations of this district are set up to provide for certain types of commercial activities which have characteristics in common. In this district, the customer usually comes directly to the particular establishment by automobile, making a separate stop for each errand. Comparison shopping activity is less than in the central business district. Since there is little essential interdependence of activities, establishments can be dispersed over considerable areas with each establishment having its own automobile parking. Good automobile accessibility is essential to these districts. The uses permitted, because of their lack of intense pedestrian activity and their required contact with auto access, would be incompatible in the central business district.

(2) *Permitted principal uses.*

(a) Any principal use permitted in the C2B business service district.

(b) Medical marijuana secure transporter, subject to section 5:50.1.

(3) *Special exception uses pursuant to section 5:104.*

(a) The temporary outdoor sales or display of goods and services, not covered by section 5:10.15(h) that cannot meet the standards of section 5:10.15(f), may be approved as a special exception use pursuant to section 5:104.

(b) A drive-thru facility that is an accessory to a permitted principal use in the C3 fringe commercial district, provided that the facility is not located between a

street and the principal building, and the vehicular circulation to enter and exit the facility does not impair the general circulation on the site or the pedestrian circulation on and off the site.

(c) Medical marijuana provisioning centers, subject to section 5:50.1.

(4) *Permitted accessory uses.*

(a) Those allowed in the R3 district.

Section 10. That Section 5:10.24 (M1 Limited Industrial District) in Chapter 55 of Title V of the Code of the City of Ann Arbor be amended as follows:

5:10.24. - M1 limited industrial district.

(1) *Intent.* The regulations of this district are set up to provide land for various types of industrial and manufacturing uses that are compatible with one another. The lands included in this district are those suited for use primarily by industries characterized by low land coverage, the absence of objectionable external effects and the possibility of large setbacks, attractive building architecture and large, landscaped park-like areas. The purpose of the district is to provide suitable sites for such uses while making certain that such uses will be compatible with adjacent or surrounding districts. To these ends, development is limited to a low concentration, external effects are minimized and permitted uses are limited to those which are adapted to an environment of this nature. The regulations are also designed to stabilize and protect the essential characteristics of the district by excluding uses which would have a detrimental effect upon the orderly development and functioning of the district. Manufacturing plants and uses shall have performance characteristics similar to those uses listed in this district in that they emit a minimum of noise, vibration, smoke, dust, dirt, toxic or offensive odors or gases, glare, electromagnetic or atomic radiation. All uses located within this district shall be so designed, constructed and operated that there is no production of sound discernible at the lot lines in excess of the average intensity of street and traffic noise at the lines, nor any production of heat or glare discernible at the same point.

(2) *Permitted principal uses.*

(a) Any principal use permitted in the RE research district or O office district (except residential uses).

(b) Special trade construction contractors; wholesale trade — building materials and wholesalers.

(c) Transportation, communications, electric, gas and sanitary services.

(d) Laundry, cleaning and garment services.

5. Printing, publishing and allied industries.
6. Biological products, drugs, medicinal, chemical and pharmaceutical preparation.
7. Glass products, made of purchased glass.
8. Electrical and electronic machinery, equipment and supplies.
9. Measuring, analyzing and controlling instruments; photographic, medical and optical goods; watches and clocks.
10. Jewelry, silverware and plated ware; musical instruments; toys and amusement, sporting and athletic goods; pens, pencils and other office and artists' materials; costume jewelry, costume novelties, buttons and miscellaneous notions; and signs and advertising displays.
11. Canvas products made of purchased canvas.
12. Fabricated metal products, except heavy machinery and transportation equipment.
13. Metalworking machinery and equipment; general industrial machinery and equipment.
14. Office, computing and accounting machines.
15. Jobbing and repair machine shops.

(f) Any other manufacturing plants and uses having performance characteristics similar to those listed in this district in that they emit a minimum of noise, vibration, smoke, dust, dirt, toxic or offensive odors or gases, glare, electromagnetic or atomic radiation and odor. All uses located within this district shall be so designed, constructed and operated that there is no production of sound discernible at the lot lines in excess of the average intensity of street and traffic noise at the lines, nor any production of heat or glare discernible at the same point.

(g) General repair of automobiles, trucks and construction equipment.

(h) Places of recreation, such as: bowling alley; boat or canoe livery; indoor tennis courts and other indoor court game facilities including, but not limited to, handball, racketball, paddleball, squash, ping-pong and similar uses; and private club or lodge hall renting for meetings or social occasions, or similar recreation uses or place of assembly; and theaters for stage productions within an enclosed building shall be permitted as a special exception use pursuant to section 5:104.

(i) Medical marijuana secure transporter, subject to section 5:50.1.

(j) Medical marijuana safety compliance facility, subject to section 5:50.1.

(k) Medical marijuana grower, subject to section 5:50.1.

(l) Medical marijuana processor, subject to section 5:50.1.

(3) *Permitted accessory uses.*

5:10.25. - M1A limited light industrial district.

(1) *Intent.* The regulations of this district are set up to provide land for various types of industrial manufacturing and low intensity commercial activity uses that are compatible with one another. The lands included in this district are those suited for use primarily by industries characterized by low land coverage, the absence of objectionable external effects and the possibility of large, landscaped, park-like areas. The purpose of the district is to provide suitable sites for such uses while making certain that such uses are limited to those which are adapted to an environment of this nature. The regulations are also designed to stabilize and protect the essential characteristics of the district by

excluding uses which would have a detrimental effect upon the orderly development and functioning of the district. Manufacturing plants and uses shall have performance characteristics similar to those uses listed in this district in that they emit a minimum of noise, vibration, smoke, dust, dirt, toxic or offensive odors or gases, glare, electromagnetic or atomic radiation. All uses located within this district shall be so designed, constructed and operated that there is no production of sound discernible at the lot lines in excess of the average intensity of street and traffic noise at the lines, nor any production of heat or glare discernible at the same point.

(1) *Intent.* This district is designed to provide land for more intense types of industrial and manufacturing uses which are usually located deep within the industrial areas of the city and downwind from residential and business areas. Regulations to minimize their incompatibility with other districts are the minimum required for mutual protection of the industrial areas and to that end, the district should not be adjacent to any residential or business district if such abutment can possibly be avoided.

Section 13. That Section 5:10.27 (PUD Planned Unit Development District) in Chapter 55 of Title V of the Code of the City of Ann Arbor be amended as follows:

5:10.27. - PUD planned unit development district.

(1) *Intent.* The purpose of this district is to permit flexibility in the regulation of land development; to encourage innovation in land use and variety in design, layout and type of structures constructed; to achieve economy and efficiency in the use of land, natural resources, energy and the provision of public services and utilities; to encourage provision of usable open space and protection of natural features; to provide adequate housing, employment and shopping opportunities particularly suited to the needs of the residents of the city; to expand the supply of affordable housing for lower income households and to encourage the use, reuse and improvement of existing sites and buildings which will be developed in a compatible way with surrounding uses but where the uniform regulations contained in other zoning districts do not provide adequate protections and safeguards for the site or surrounding area. This is a unique land use with ramifications not addressed by more traditional zoning district regulations.*

(a) (b) It is the intent of this section to **also** provide appropriate locations and reasonable restrictions for the cultivation and transfer of marijuana allowed by the Michigan Medical Marihuana Act, MCL 333.26421 et. seq. This is a unique land use with ramifications not addressed by more traditional zoning district and home occupation regulations. ~~Although some specific uses of marijuana are allowed by the Michigan Medical Marihuana Act, marijuana continues to be classified as a Schedule 1 controlled substance under federal law making it unlawful under federal law to use, manufacture, distribute, or dispense, or possess with intent to manufacture, distribute, or dispense marijuana.~~

(b) It is the intent of this section to protect the health, safety, and general welfare of persons and property by limiting land uses related to marijuana to districts that are compatible with such uses. Additional regulations in this section are intended to provide reasonable restrictions within districts so that these uses do not compromise the health, safety, and general welfare of persons in the district, or other uses allowed in each district.
