Subject: No Marijuana Dispensary at 1202 Packard

Dear Planning Commission,

I want you to know that I and my husband, Dr. Dan Berland, are opposed to the city granting a special exception use permit to the developer of a medical marijuana dispensary at 1202 Packard.

Along with many of our neighbors, we believe that:

1. This location is too close to Burns Park Elementary
2. There are already two dispensaries within 1.2 miles of this site
3. This is not the type of business our neighborhood needs nor wants.
4. There are already too many of these in Ann Arbor now--far too many for a population of our size.

Knowing that these businesses are controversial anyway, and that most "prescribing" doctors are opportunists looking to make a buck without knowing or caring for their "patients" at all, we are opposed to this taking over our town. We don't want to look at this every time we leave the neighborhood or shop at Argus Farm Market. These businesses have already proven to attract crime, which we also do not need.

Please DO NOT GRANT the permit for this unnecessary business.

Thank you,

Lisa Jevens & Dan Berland
