These minutes are incomplete, and inaccurate. I attended the meeting, I know of what I speak. There were 2 speakers at public comment time, this only talks about one, me, and my concerns were NOT addressed. The other speaker seconded my remarks, and went on to mention the difficulties he had encountered trying to actually

locate a meeting to attend, the improper public notice, and the general atmosphere of secrecy surrounding the AAPAC's actions.

The prior annual retreat was cancelled without proper notice, and the rescheduling was done in violation of OMA guidelines. Public matters CANNOT continue to be discussed in violation of OMA. The Public Art Commission is an easy target for this, but I know many boards and commissions operate in the same way, especially those populated by largely political appointees - DDA sub-committees, etc. To accept these minutes as written would be to accept incomplete and factually incorrect minutes.

I fully support our Police and police staff.

I question both the methodology of the study, and the conclusions drawn from it. IF we are billing on a true cost of service basis, all users should pay the same rates per gallon of water.

Agenda Item: eComments for DC-4 18-0926 Resolution to Provide Direction to the City Administrator on the Provision of Solid Waste Services

I fully support this resolution, and oppose the outsourcing of this service. That the city would consider making changes to, or consider outsourcing Solid Waste collection, until the study/report is complete is questionable. What is the purpose of studying the issue if we are acting without waiting for the study's results? Public/Private partnerships & outsourcing rarely benefit the taxpayer, and they certainly do not benefit the working men and women of our local labor unions. By keeping these job in-house we are able to ensure that a fair wage is paid, that we have proper oversight of the work, and that we retain the flexibility to change our systems as our needs change.

This part is the most important to me:

"RESOLVED, That City Council directs the City Administrator to end the practice of using temporary employees rather than properly trained, full-time bargaining unit employees to provide solid waste services unless and until the City Council expressly approves such action."

Stop pretending to court the general public to serve on Boards and Commissions, when there is no clear path to do so. I oppose these appointments not because the people serving are doing a poor job (well, maybe a few of them are) but because 14 of 16 (7/8) of this weeks appointments are REappointments. Of the list read at last weeks meeting 35/40 were REappointments. And of those remaining 2 up this week, they are going to people who are politically connected. (School Board & SPARK) Where is the opportunity?

One of the reasons we are always spending so much on outside consultants seems to be that we are not engaging the community fully and properly, instead, we are making political appointments. We have to change this culture.
