Work to be Accomplished

- Contract with University of Michigan to create a report on Cantillon usage.
- Begin discussions on contract for next fiscal year.

Problems

None

Significant Deviation from Scope of Work

Phase 2 and Phase 3 hours and expenses are significantly behind budget. We anticipate significant increase next quarter in Phase 2 and 3 dollar commitments since we have broadened the services we offer clients. In the next quarter we estimate the number of companies receiving these services will increase by 50% to 21, based on our pipeline increase for due diligence. Due diligence hours will increase as the ask for Phase 3 support increases. We also expect the average amount of services for Phase 3 will increase 66% as we increase the number of service offerings. This will bring our fourth quarter actual numbers close to the original projections for the quarter. Total year, however, will be significantly under budget.

Business incubator expense is over budget because tenancy is under projection. This was due to the number of tenants over estimated plus several tenants were unable to pay. Therefore the amount budgeted to be deducted from total incubator costs was significantly less. However, the amount billed for the incubator is significantly below the maximum annual fee under the terms of the agreement.

Not budgeted but approved as a shared equipment item is \$10,000 for improved audio/video equipment for the event space at the incubator.

Business Services

The 15th Entrepreneur Boot Camp will take place April 23 and 24.
