Resolution DC-3

Thank you for forwarding to council, Ms. Beaudry.

Council, I will also copy you on the state statute.

Thank you for adding this title to the agenda.

Jane

Whereas, The City has an agreement with White Buffalo, Inc. ("White Buffalo") to provide wildlife management services, which includes deer culling services, to the City related to a research permit from the Michigan Department of Natural Resources;

Whereas, White Buffalo has attempted in recent days to provide such services, including killing and attempting to kill deer at certain approved sites, but the actions of individuals around the work sites have obstructed and interfered with such attempts;

Whereas, It is unlawful pursuant to MCL 324.40112 ("Lawful Taking Statute") for an individual to obstruct or interfere with the lawful taking of an animal as further outlined in that statute;

Whereas, The individuals' actions may be otherwise unlawful; and

Whereas, Section three of the Lawful Taking Statute provides that, "[u]pon petition of an aggrieved person or an individual who reasonably may be aggrieved by a violation of this section, a court of competent jurisdiction, upon a showing that an individual was engaged in and threatens to continue to engage in illegal conduct under this section, may enjoin that conduct."

RESOLVED, That the City Council hereby directs the City Attorney to immediately review the Lawful Taking Statute and other applicable law;

RESOLVED, That the City Attorney promptly determine whether the actions of the individuals who engage or threaten to engage in interfering with White Buffalo's services are unlawful; and

RESOLVED, That if the City Attorney determines that such actions are unlawful, that the City Administrator and City Attorney take any and all appropriate responsive actions, including issuance of citations and the filing of lawsuits seeking an injunction or such other relief that the City Attorney determines appropriate.

KeyCite Yellow Flag - Negative Treatment Proposed Legislation

Michigan Compiled Laws Annotated
Chapter 324. Natural Resources and Environmental Protection
Natural Resources and Environmental Protection Act (Refs & Annos)
Article III. Natural Resources Management
Chapter 2. Management of Renewable Resources
Subchapter 1. Wildlife
Wildlife Conservation
Part 401. Wildlife Conservation

M.C.L.A. 324.40112

324.40112. Obstruction or interference in lawful taking of animals or fish by another; violations; injunction; penalties; applicability

Effective: July 13, 2015 Currentness

Sec. 40112. (1) An individual shall not obstruct or interfere in the lawful taking of animals or fish by another individual.

- (2) An individual violates this section when the individual intentionally or knowingly does any of the following:
- (a) Drives or disturbs animals or fish for the purpose of disrupting a lawful taking.
- (b) Blocks, impedes, or harasses another individual who is engaged in the process of lawfully taking an animal or fish.
- (c) Uses a natural or artificial visual, aural, olfactory, gustatory, or physical stimulus or an unmanned vehicle or unmanned device that uses aerodynamic forces to achieve flight or that operates on the surface of the water or underwater, to affect animal or fish behavior in order to hinder or prevent the lawful taking of an animal or a fish.
- (d) Erects barriers to deny ingress or egress to areas where the lawful taking of animals or fish may occur. This subdivision does not apply to an individual who erects barriers to prevent trespassing on his or her property.
- (e) Interjects himself or herself into the line of fire of an individual lawfully taking wildlife.
- (f) Affects the condition or placement of personal or public property intended for use in the lawful taking of an animal or a fish in order to impair the usefulness of the property or prevent the use of the property.
- (g) Enters or remains upon private lands without the permission of the owner or the owner's agent, for the purpose of violating this section.

- (h) Engages in any other act or behavior for the purpose of violating this section.
- (3) Upon petition of an aggrieved person or an individual who reasonably may be aggrieved by a violation of this section, a court of competent jurisdiction, upon a showing that an individual was engaged in and threatens to continue to engage in illegal conduct under this section, may enjoin that conduct.
- (4) An individual who violates this section is guilty of a misdemeanor punishable by imprisonment for not more than 93 days or a fine of not less than \$500.00 or more than \$1,000.00, or both, and the costs of prosecution. An individual who violates this section a second or subsequent time is guilty of a misdemeanor punishable by imprisonment for not more than 1 year or a fine of not less than \$1,000.00 or more than \$2,500.00, or both, and the costs of prosecution. In addition to the penalties provided for in this subsection, any permit or license issued by the department authorizing the individual to take animals or fish shall be revoked. A prosecution under this section does not preclude prosecution or other action under any other criminal or civil statute.
- (5) This section does not apply to a peace officer while the peace officer performs his or her lawful duties.

	Hi everyone, Thank you so much for neighbors and council Scott Newell On Mon, Jan 7, 2019,	or your time on this issue. I feel very gratef reps. I reget that Im out of town until 15 J 3:27 PM Tom Stulberg Speakers can mention them or not. Anne	an. Thanks again. wrote:			
	written to that effectends at her property	3 Traver (house and vacant lot) would like t. Since the existing sidewalk on school property, she can have sidewalks anytime she wan the estimated at \$5,000, which she is not have	operty on Traver Street dead ts, with or without this			

expensive for her to install her own sidewalks on her own property WITHOUT being included in the program and without the grant money. Being included in this program forces her to share in the higher average cost because of the expenses of the two solutions that have been proposed so far.

AAPS closes their drop off loops to commuters and directs commuters to use Traver Street as a drop off "loop" instead, as well as the two churches. statements have been made that neighborhood schools expect some parking on neighborhood streets. But AAPS is going far beyond that generalization and asking the residents of Traver Street to provide an extraordinary service for Northside STEAM's drop off and pick up, at no expense to AAPS and at great expense to the neighbors. This is not the incidental use implied by neighborhood schools expecting some parking on neighborhood streets.

The response from the city regarding the vacant lot at 1600 Traver that will have a shared drive for four new homes was dismissive and inadequate. The approved common drive is right at the intersection of Traver and John A. Woods, already a problematic intersection for pedestrians and cyclists. The city is forgoing an opportunity to make this intersection safer by ignoring the possibility of working with the builder/developer. Rather he will be assessed over \$7,000 for sidewalks that will be destroyed during construction and the city's response indicated that he would then have to pay for their reconstruction. This is unfortunately indicative of the attitude towards those bearing the burden of this project from the city and AAPS.

I presume you all have thought out what you are going to say. Do with the above as you wish.

Lester, I'll see your code citation and raise you!

Ann Arbor, MI Code of Ordinances. Chapter 13 Special Assessments

1:290 - Objections to roll.

Any person aggrieved by the special assessment roll or the necessity of the improvement may file objections to the roll in writing with the Clerk prior to the close of the hearing. The written objections shall specify in what respect the person believes him or herself aggrieved. No original assessment roll shall be confirmed except by the affirmative vote of 8 members of the Council if prior to the confirmation written objections to the proposed improvement have been filed by the owners of the property which will be required to bear over 50% of the amount of the special assessment.

Subject: Re: transportation commission contact

Anne, after reading the City Charter, I don't agree with Jack's assessments about when a supermajority applies. According to 4.4. G of the City Charter:

The affirmative vote of at least six members of the Council, or of such greater number as may be required by this charter, or other provisions of law, Ann Arbor, Michigan City Charter 16 shall be required for the adoption or passage of any resolution or ordinance, or the taking of any official Council action. No office may be created or abolished, nor any street, alley, or public ground vacated, nor private property taken for public use, unless by a concurring vote of at least eight members of the Council.

The City is proposing to vacate a portion of the City street, which is used by City residents parking, for other purposes. I am not an attorney, nor am I a judge, but I have been involved in writing regulations for the last 30 years, and I think that we have a pretty strong case that when the City proposes to vacate a portion of the City street, that a super-majority would be required.

Lester

On Sun, Jan 6, 2019 at 7:51 PM Bannister, Anne < <u>ABannister@a2gov.org</u>> wrote: I'm just leaving Jack Eaton's house now. We met with Ali, Kathy, and Elizabeth. Ali and Elizabeth remain unconvinced of the need to vote NO. But I'm going to proceed to email all of Council and the neighbors tonight anyway, or tomorrow at the latest, with my urgent request for a NO vote, just in case anything changes tomorrow with Ali and Elizabeth.

Right now we do not have the 6 votes needed, but let's continue to try and convince Council. We've got nothing to lose by doing so.

The neighborhood petition showing a lack of public support is still useful. I confirmed with Jack, however, that the 8 vote super majority only works for issues like budget amendments and rezoning requests (Kroger Lot), not this SRTS resolution.

Thanks, Anne

Thanks for this informative message! Could not agree more strongly about restoring community participation in processes affecting communities. We really had that in 2004 when the Broadway Bridges were replaced. Without the active community participation that we had then--with great support from Sabra Briere and others on the Council--we would be using a freeway-style bridge--with no pedestrian barrier today. (Yours truly did some work on precedents for pedestrian protection on Michigan bridges...). Plan to send a *brief* message on need for community participation this evening.

On Sun, Jan 6, 2019 at 3:06 PM EVERETT LAST_NAME wrote:

Anne -

I talked with Linda Feldt for a short minute. She likes Howard and his value set - kids, the environment, etc. So...

She put me in contact with Brad Parsons on the Transportation Commission. He is aware of our situation. I told him that most (90%+)

of the homeowners in the 1600 block of Traver are opposed to sidewalks on both sides of the street, and that we want to confirm who it is that mandates dual sidewalks for the project. He said he had the same conversation with Nick Hutchinson in engineering, who could not unequivocally say two sidewalks are required or who requires them.

Brad did not have much time to talk, but he did say that our unpublished article is still useful. If not already included, we should add quotes and photos. Then the plan would be for a supportive city councilperson to release it. He's convinced it would not be overlooked if presented this way.

I forgot to ask if he knows of any surveys done by the city of homeowners post-sidewalk renovation.

His second quick thought was more long-term. He feels the story of our difficult relations with the city could be useful and instructive to get other city commissions to join together to get the city to engage in more inclusive and comprehensive planning. Depends on how engaged we want to be, and for how long, I guess.

That's what I know.

Best -

Everett

On Mon, Jan 7, 2019, 3:27 PM Tom Stulberg wrote: Additional thoughts. Speakers can mention them or not. Anne and Jeff FYI.

Rachael Toon at 1643 Traver (house and vacant lot) would like sidewalks and has spoken and written to that effect. Since the existing sidewalk on school property on Traver Street dead ends at her property, she can have sidewalks anytime she wants, with or without this program. Her cost is estimated at \$5,000, which she is not happy about. It might be less expensive for her to install her own sidewalks on her own property WITHOUT being included in the program and without the grant money. Being included in this program forces her to share in the higher average cost because of the expenses of the two solutions that have been proposed so far.

AAPS closes their drop off loops to commuters and directs commuters to use Traver Street as a drop off "loop" instead, as well as the two churches. statements have been made that neighborhood schools expect some parking on neighborhood streets. But AAPS is going far beyond that generalization and asking the residents of Traver Street to provide an extra-ordinary service for Northside STEAM's drop off and pick up, at no expense to AAPS and at great expense to the neighbors. This is not the incidental use implied by neighborhood schools expecting some parking on neighborhood streets.

The response from the city regarding the vacant lot at 1600 Traver that will have a shared drive for four new homes was dismissive and inadequate. The approved common drive is right at the intersection of Traver and John A. Woods, already a problematic intersection for pedestrians and cyclists. The city is forgoing an opportunity to make this intersection safer by ignoring the possibility of working with the builder/developer. Rather he will be assessed over \$7,000 for sidewalks that will be destroyed during construction and the city's response indicated that he would then have to pay for their reconstruction. This is unfortunately indicative of the attitude towards those bearing the burden of this project from the city and AAPS.

I presume you all have thought out what you are going to say. Do with the above as you wish.

Lester, I'll see your code citation and raise you!

Ann Arbor, MI Code of Ordinances. Chapter 13 Special Assessments

1:290 - Objections to roll.

Any person aggrieved by the special assessment roll or the necessity of the improvement may file objections to the roll in writing with the Clerk prior to the close of the hearing. The written objections shall specify in what respect the person believes him or herself aggrieved. No original assessment roll shall be confirmed except by the affirmative vote of 8 members of the Council if prior to the confirmation written objections to the proposed improvement have been filed by the owners of the property which will be required to bear over 50% of the amount of the special assessment.

Anne, after reading the City Charter, I don't agree with Jack's assessments about when a supermajority applies. According to 4.4. G of the City Charter:

The affirmative vote of at least six members of the Council, or of such greater number as may be required by this charter, or other provisions of law, Ann Arbor, Michigan City Charter 16 shall be required for the adoption or passage of any resolution or ordinance, or the taking of any official Council action. No office may be created or abolished, **nor any street, alley, or public ground vacated**, nor private property taken for public use, **unless by a concurring vote of at least eight members of the Council.**

The City is proposing to vacate a portion of the City street, which is used by City residents parking, for other purposes. I am not an attorney, nor am I a judge, but I have been involved in writing regulations for the last 30 years, and I think that we have a pretty strong case that when the City proposes to vacate a portion of the City street, that a super-majority would be required.

I'm just leaving Jack Eaton's house now. We met with Ali, Kathy, and Elizabeth. Ali and Elizabeth remain unconvinced of the need to vote NO. But I'm going to proceed to email all of Council and the

neighbors tonight anyway, or tomorrow at the latest, with my urgent request for a NO vote, just in case anything changes tomorrow with Ali and Elizabeth.

Right now we do not have the 6 votes needed, but let's continue to try and convince Council. We've got nothing to lose by doing so.

The neighborhood petition showing a lack of public support is still useful. I confirmed with Jack, however, that the 8 vote super majority only works for issues like budget amendments and rezoning requests (Kroger Lot), not this SRTS resolution.

Thanks, Anne

wrote:

I talked with Linda Feldt for a short minute. She likes Howard and his value set - kids, the environment, etc. So...

She put me in contact with Brad Parsons on the Transportation Commission. He is aware of our situation. I told him that most (90%+)

of the homeowners in the 1600 block of Traver are opposed to sidewalks on both sides of the street, and that we want to confirm who it is that mandates dual sidewalks for the project. He said he had the same conversation with Nick Hutchinson in engineering, who could not unequivocally say two sidewalks are required or who requires them.

Brad did not have much time to talk, but he did say that our unpublished article is still useful. If not already included, we should add quotes and photos. Then the plan would be for a supportive city councilperson to release it. He's convinced it would not be overlooked if presented this way. I forgot to ask if he knows of any surveys done by the city of homeowners post-sidewalk renovation. His second quick thought was more long-term. He feels the story of our difficult relations with the city could be useful and instructive to get other city commissions to join together to get the city to engage in more inclusive and comprehensive planning. Depends on how engaged we want to be, and for how long, I guess.

That's what I know.

Funding Water projects

Dear Sirs;

Please clarify a budget and funding question for me, are capital improvements to water infrastructure only allowed to be paid for with revenue derived from the water system, or bonding against (or by) those service area funds? Can we use general fund dollars or other fungible funds for investments in our water system?

Thank you for your consideration of this question,

Additional thoughts. Speakers can mention them or not. Anne and Jeff FYI.

Rachael Toon at 1643 Traver (house and vacant lot) would like sidewalks and has spoken and written to that effect. Since the existing sidewalk on school property on Traver Street dead ends at her property, she can have sidewalks anytime she wants, with or without this program. Her cost is estimated at \$5,000, which she is not happy about. It might be less expensive for her to install her own sidewalks on her own property WITHOUT being included in the program and without the grant money. Being included in this program forces her to share in the higher average cost because of the expenses of the two solutions that have been proposed so far.

AAPS closes their drop off loops to commuters and directs commuters to use Traver Street as a drop off "loop" instead, as well as the two churches. statements have been made that neighborhood schools expect some parking on neighborhood streets. Re: Additional thoughts for speakers

At the break, Jack Eaton said that he would move to bring up the SRTS sidewalks up for a revote!

I suggested to Anne that she indicate, and ask other council members to indicate, whether they intend to vote no for the special assessments down the line. Since the Traver folks are overwhelming against this, thus 8 votes are needed to pass this later on, or only 4 votes are needed to kill it. If all the council members knew this now, they could choose to vote to kill this now rather than go through design and bidding, only to seeing it killed later on - placing the grant \$ at much greater risk.

	yrote: wrote: wrote. Speakers can mention them or not. Anne and Jeff FYI.	

Rachael Toon at 1643 Traver (house and vacant lot) would like sidewalks and has spoken and written to that effect. Since the existing sidewalk on school property on Traver Street

dead ends at her property, she can have sidewalks anytime she wants, with or without this program. Her cost is estimated at \$5,000, which she is not happy about. It might be less expensive for her to install her own sidewalks on her own property WITHOUT being included in the program and without the grant money. Being included in this program forces her to share in the higher average cost because of the expenses of the two solutions that have been proposed so far.

AAPS closes their drop off loops to commuters and directs commuters to use Traver Street as a drop off "loop" instead, as well as the two churches. statements have been made that neighborhood schools expect some parking on neighborhood streets. But AAPS is going far beyond that generalization and asking the residents of Traver Street to provide an extraordinary service for Northside STEAM's drop off and pick up, at no expense to AAPS and at great expense to the neighbors. This is not the incidental use implied by neighborhood schools expecting some parking on neighborhood streets.

The response from the city regarding the vacant lot at 1600 Traver that will have a shared drive for four new homes was dismissive and inadequate. The approved common drive is right at the intersection of Traver and John A. Woods, already a problematic intersection for pedestrians and cyclists. The city is forgoing an opportunity to make this intersection safer by ignoring the possibility of working with the builder/developer. Rather he will be assessed over \$7,000 for sidewalks that will be destroyed during construction and the city's response indicated that he would then have to pay for their reconstruction. This is unfortunately indicative of the attitude towards those bearing the burden of this project from the city and AAPS.

I presume you all have thought out what you are going to say. Do with the above as you wish.

Subject: Re: transportation commission contact

Anne, after reading the City Charter, I don't agree with Jack's assessments about when a supermajority applies. According to 4.4. G of the City Charter:

The affirmative vote of at least six members of the Council, or of such greater number as may be required by this charter, or other provisions of law, Ann Arbor, Michigan City Charter 16 shall be required for the adoption or passage of any resolution or ordinance, or the taking of any official Council action. No office may be created or abolished, nor any street, alley, or public ground vacated, nor private property taken for public use, unless by a concurring vote of at least eight members of the Council.

The City is proposing to vacate a portion of the City street, which is used by City residents parking, for other purposes. I am not an attorney, nor am I a judge, but I have been involved in writing regulations for the last 30 years, and I think that we have a pretty strong case that when the City proposes to vacate a portion of the City street, that a super-majority would be required.

Lester

On Sun, Jan 6, 2019 at 7:51 PM Bannister, Anne < ABannister@a2gov.org> wrote: I'm just leaving Jack Eaton's house now. We met with Ali, Kathy, and Elizabeth. Ali and Elizabeth remain unconvinced of the need to vote NO. But I'm going to proceed to email all of Council and the neighbors tonight anyway, or tomorrow at the latest, with my urgent request for a NO vote, just in case anything changes tomorrow with Ali and Elizabeth.

Right now we do not have the 6 votes needed, but let's continue to try and convince Council. We've got nothing to lose by doing so.

The neighborhood petition showing a lack of public support is still useful. I confirmed with Jack, however, that the 8 vote super majority only works for issues like budget amendments and rezoning requests (Kroger Lot), not this SRTS resolution.

Thanks, Anne

Anne -

I talked with Linda Feldt for a short minute. She likes Howard and his value set - kids, the environment, etc. So...

She put me in contact with Brad Parsons on the Transportation Commission. He is aware of our situation. I told him that most (90%+)

of the homeowners in the 1600 block of Traver are opposed to sidewalks on both sides of the street, and that we want to confirm who it is that mandates dual sidewalks for the project. He said he had the same conversation with Nick Hutchinson in engineering, who could not unequivocally say two sidewalks are required or who requires them. Brad did not have much time to talk, but he did say that our unpublished article is still useful. If not already included, we should add quotes and photos. Then the plan would be for a supportive city councilperson to release it. He's convinced it would not be overlooked if presented this way.

I forgot to ask if he knows of any surveys done by the city of homeowners post-sidewalk renovation.

His second quick thought was more long-term. He feels the story of our difficult relations with the city could be useful and instructive to get other city commissions to join together to get the city to engage in more inclusive and comprehensive planning. Depends on how engaged we want to be, and for how long, I guess. That's what I know.

At the break, Jack Eaton said that he would move to bring up the SRTS sidewalks up for a revote!				
I suggested to Anne that she indicate, and ask other council members to indicate, whether they intend to vote no for the special assessments down the line. Since the Traver folks are overwhelming against this, thus 8 votes are needed to pass this later on, or only 4 votes are needed to kill it. If all the council members knew this now, they could choose to vote to kill this now rather than go through design and bidding, only to seeing it killed later on - placing the grant \$ at much greater risk.

Thank you

Dear Mayor Taylor,

Thank you so much for standing by your long belief that the deer cull is unnecessary.

I am watching the council meeting as I write this and have joined in several of the protests at the sites where the sharpshooters have been in past years and protests in other locations not during cull hours. The most recent being January 2, the first evening of the cull. All of those I have attended have been quiet and there has been no disrupting the sharpshooters other than just being there. I have to wonder if this could be exaggerated somewhat.

I have also thanked my Ward 1 council person Jeff Hayner for his support of those of us who are against this dangerous and expensive process.

Re: Bad news good news

Thanks for watching Tom.

I suggest we discuss with Joe Lloyd (attorney) whether the removal of street parking is considered vacating a street, or really a portion of a street. The reason why this is important is that if we are successful in having the court defining this as vacating, then a supermajority is needed to move the sidewalk project forward. Since there currently are 4 no votes, this would kill the project now and not allow it to go forward where all council members would be pressured to vote for it when the final design is done.

No original assessment roll shall be confirmed except by the affirmative vote of 8 members of the Council if prior to the confirmation written objections to the proposed improvement have been filed by the owners of the property which will be required to bear over 50% of the amount of the special assessment.

Anne, after reading the City Charter, I don't agree with Jack's assessments about when a supermajority applies. According to 4.4. G of the City Charter:

The affirmative vote of at least six members of the Council, or of such greater number as may be required by this charter, or other provisions of law, Ann Arbor, Michigan City Charter 16 shall be required for the adoption or passage of any resolution or ordinance, or the taking of any official Council action. No office may be created or abolished, nor any street, alley, or public ground vacated, nor private property taken for public use, unless by a concurring vote of at least eight members of the Council.

The City is proposing to vacate a portion of the City street, which is used by City residents parking, for other purposes. I am not an attorney, nor am I a judge, but I have been involved in writing regulations for the last 30 years, and I think that we have a pretty strong case that when the City proposes to vacate a portion of the City street, that a super-majority would be required.

On Sun, Jan 6, 2019 at 7:51 PM Bannister, Anne < ABannister@a2gov.org> wrote: I'm just leaving Jack Eaton's house now. We met with Ali, Kathy, and Elizabeth. Ali and Elizabeth remain unconvinced of the need to vote NO. But I'm going to proceed to email all of Council and the neighbors tonight anyway, or tomorrow at the latest, with my urgent request for a NO vote, just in case anything changes tomorrow with Ali and Elizabeth.

Right now we do not have the 6 votes needed, but let's continue to try and convince Council. We've got nothing to lose by doing so.

The neighborhood petition showing a lack of public support is still useful. I confirmed with Jack, however, that the 8 vote super majority only works for issues like budget amendments and rezoning requests (Kroger Lot), not this SRTS resolution.

Thanks, Anne

Thanks for this informative message! Could not agree more strongly about restoring community participation in processes affecting communities. We really had that in 2004 when the Broadway Bridges were replaced. Without the active community participation that we had then--with great support from Sabra Briere and others on the Council--we would be using a freeway-style bridge--with no pedestrian barrier today. (Yours truly did some work on precedents for pedestrian protection on Michigan bridges...). Plan to send a *brief* message on need for community participation this evening.

She put me in contact with Brad Parsons on the Transportation Commission. He is aware of our situation. I told him that most (90%+)

of the homeowners in the 1600 block of Traver are opposed to sidewalks on both sides of the street, and that we want to confirm who it is that mandates dual sidewalks for the project. He said he had the same conversation with Nick Hutchinson in engineering, who could not unequivocally say two sidewalks are required or who requires them.

Brad did not have much time to talk, but he did say that our unpublished article is still useful. If not already included, we should add quotes and photos. Then the plan would be for a supportive city councilperson to release it. He's convinced it would not be overlooked if presented this way. I forgot to ask if he knows of any surveys done by the city of homeowners post-sidewalk renovation. His second quick thought was more long-term. He feels the story of our difficult relations with the city could be useful and instructive to get other city commissions to join together to get the city to engage in more inclusive and comprehensive planning. Depends on how engaged we want to be, and for how long, I guess.

That's what I know.

Best -

Everett

Thanks for watching Tom.

I suggest we discuss with Joe Lloyd (attorney) whether the removal of street parking is considered vacating a street, or really a portion of a street. The reason why this is important is that if we are successful in having the court defining this as vacating, then a supermajority is needed to move the sidewalk project forward. Since there currently are 4 no votes, this would kill the project now and not allow it to go forward where all council members would be pressured to vote for it when the final design is done.

On Mon, Jan 7, 2019 at 10:52 PM Tom Stulberg wrote: It passed again. Boo. Lots of misinformation and misunderstanding of the facts.

Vote was 7-4. If the four hold fast, it fails in the spring when a super majority is needed.

Dos and don'ts: Do thank council members who voted our way and even those who might have if the facts were more clear (Nelson and maybe Lumm). Don't blast anyone with hate mail. It doesn't help, and this is not over. We want to be perceived as reasonable people who are willing to work towards a real solution to school pedestrian safety. I know we were inaccurately colored as anti-any-change by one or more council members, but let that go. We never were going to have their vote anyhow, and they aren't going to change their stripes.

At the break, Jack Eaton said that he would move to bring up the SRTS sidewalks up for a revote!

I suggested to Anne that she indicate, and ask other council members to indicate, whether they intend to vote no for the special assessments down the line. Since the Traver folks are overwhelming against this, thus 8 votes are needed to pass this later on, or only 4 votes are needed to kill it. If all the council members knew this now, they could choose to vote to kill this now rather than go through design and bidding, only to seeing it killed later on - placing the grant \$ at much greater risk.

On Mon, Jan 7, 2019, 3:27 PM Tom Stulberg wrote: Additional thoughts. Speakers can mention them or not. Anne and Jeff FYI.

Rachael Toon at 1643 Traver (house and vacant lot) would like sidewalks and has spoken and written to that effect. Since the existing sidewalk on school property on Traver Street dead ends at her property, she can have sidewalks anytime she wants, with or without this program. Her cost is estimated at \$5,000, which she is not happy about. It might be less expensive for her to install her own sidewalks on her own property WITHOUT being included in the program and without the grant money. Being included in this program forces her to share in the higher average cost because of the expenses of the two solutions that have been proposed so far.

AAPS closes their drop off loops to commuters and directs commuters to use Traver Street as a drop off "loop" instead, as well as the two churches. statements have been made that neighborhood schools expect some parking on neighborhood streets. But AAPS is going far beyond that generalization and asking the residents of Traver Street to provide an extra-ordinary service for Northside STEAM's drop off and pick up, at no expense to AAPS and at great expense to the neighbors. This is not the incidental use implied by neighborhood schools expecting some parking on neighborhood streets.

The response from the city regarding the vacant lot at 1600 Traver that will have a shared drive for four new homes was dismissive and inadequate. The approved common drive is right at the intersection of Traver and John A. Woods, already a problematic intersection for pedestrians and cyclists. The city is forgoing an opportunity to make this intersection safer by ignoring the possibility of working with the builder/developer. Rather he will be assessed over \$7,000 for sidewalks that will be destroyed during

construction and the city's response indicated that he would then have to pay for their reconstruction. This is unfortunately indicative of the attitude towards those bearing the burden of this project from the city and AAPS.

I presume you all have thought out what you are going to say. Do with the above as you wish.

Lester, I'll see your code citation and raise you!

Ann Arbor, MI Code of Ordinances. Chapter 13 Special Assessments

1:290 - Objections to roll.

Any person aggrieved by the special assessment roll or the necessity of the improvement may file objections to the roll in writing with the Clerk prior to the close of the hearing. The written objections shall specify in what respect the person believes him or herself aggrieved. No original assessment roll shall be confirmed except by the affirmative vote of 8 members of the Council if prior to the confirmation written objections to the proposed improvement have been filed by the owners of the property which will be required to bear over 50% of the amount of the special assessment.
