

Youth Involvement Group January 2019 – February 2019

Our working group met several times since our last AAPAC meeting to discuss possible ideas to showcase our current art collection, invite youth participation into AAPAC and showcase youth in our community through arts involvement.

We started first conversations on probable scope of initiatives, timelines, fundraising effort and information gathering. It is our intent to bring potential fleshed out ideas to AAPAC when sufficient information has been gathered for AAPAC to be able to review, comment, revise and determine viability.

A short survey is being developed by the group that after review by AAPAC and youth input, we would propose as a method for gathering public input of youth.

We are reviewing the possible initiatives in regards to their alignment with AAPAC's stated mission and goals as follow:

Goals

1. *Creating mutual learning, experience and POV understanding between youth and general citizenry*
2. *Showcasing and amplifying the youth of Ann Arbor*
3. *Connecting Youth to arts in the public arena*
