Priorities of the Environmental Commission (2019)

Solid Waste 6 votes Get a fully functional MRF 6 votes (4 first place) Hire solid waste manager Educate residents and get RAA's recycling guide on city website
Hire solid waste manager Educate residents and get RAA's recycling guide on city
Educate residents and get RAA's recycling guide on city
Reconsider value of single-stream recycling
Zero waste
Compost collection 4 votes (all 2 nd place)
Construction waste recycling
Pay as You Throw 2 votes (all 3 rd place)
Improve diversion rate 2 votes (and 5 place)
Natural Features 7 votes
Comprehensive natural features ordinance 1 votes 1 vote (1st place)
Conducting inventory of natural features inc heritage trees 6 votes (2 1st place, 2 2nd
and tree canopy place, 2 3 rd place)
Hire coordinator and conduct neighborhood engagement 2 votes (both 3 rd place)
Nature as a transportation corridor/park parcels
Revisit Greenbelt program to inc local food production as a 1 vote (2 nd place)
focus
Celebrate chimney swifts and protect their habitat
Water Issues 5 votes
PFAS 2 votes (1 2 nd place, 1 3 rd
PFAS 2 votes (1 2 nd place, 1 3 rd place)
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality)
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality) Measurable improvement in quality of Allen Creek 3 votes (2 1 st place, one 3 rd
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality) Measurable improvement in quality of Allen Creek 3 votes (2 1 st place, one 3 rd watershed (using HRWC's metric) place)
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality) Measurable improvement in quality of Allen Creek watershed (using HRWC's metric) Climate Action and Clean Air 2 votes (1 2 nd place, 1 3 rd place)
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality) Measurable improvement in quality of Allen Creek 3 votes (2 1 st place, one 3 rd watershed (using HRWC's metric) place) Climate Action and Clean Air 1 vote Weatherization of residences/energy efficiency to reduce 1 vote (2 nd place)
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality) Measurable improvement in quality of Allen Creek 3 votes (2 1 st place, one 3 rd watershed (using HRWC's metric) place) Climate Action and Clean Air 1 vote Weatherization of residences/energy efficiency to reduce GHGs
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality) Measurable improvement in quality of Allen Creek 3 votes (2 1 st place, one 3 rd watershed (using HRWC's metric) place) Climate Action and Clean Air 1 vote Weatherization of residences/energy efficiency to reduce GHGs Emergency preparedness hubs
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality) Measurable improvement in quality of Allen Creek 3 votes (2 1 st place, one 3 rd watershed (using HRWC's metric) place) Climate Action and Clean Air 1 vote Weatherization of residences/energy efficiency to reduce GHGs Emergency preparedness hubs Transportation options, walkability, "snow buddy" snow 3 votes (1 1 st place, 1 2 nd
PFAS Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality) Measurable improvement in quality of Allen Creek 3 votes (2 1st place, one 3rd place) Climate Action and Clean Air Weatherization of residences/energy efficiency to reduce GHGs Emergency preparedness hubs Transportation options, walkability, "snow buddy" snow removal to encourage year-round walking and biking 2 votes (1 2nd place, 1 3rd place, 1 2nd place)
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality) Measurable improvement in quality of Allen Creek 3 votes (2 1 st place, one 3 rd watershed (using HRWC's metric) place) Climate Action and Clean Air 1 vote Weatherization of residences/energy efficiency to reduce GHGs Emergency preparedness hubs Transportation options, walkability, "snow buddy" snow 3 votes (1 1 st place, 1 2 nd
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality) Measurable improvement in quality of Allen Creek watershed (using HRWC's metric) Climate Action and Clean Air Weatherization of residences/energy efficiency to reduce GHGs Emergency preparedness hubs Transportation options, walkability, "snow buddy" snow removal to encourage year-round walking and biking Encourage mixed use developments so that people don't have to drive to the store
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality) Measurable improvement in quality of Allen Creek 3 votes (2 1 st place, one 3 rd watershed (using HRWC's metric) place) Climate Action and Clean Air 1 vote Weatherization of residences/energy efficiency to reduce GHGs Emergency preparedness hubs Transportation options, walkability, "snow buddy" snow removal to encourage year-round walking and biking place, 1 3 rd place) Encourage mixed use developments so that people don't have to drive to the store Work to have less idling in cars
PFAS 2 votes (1 2 nd place, 1 3 rd place) Revisit stormwater regulations Future of Superior and Barton dams Communications (whether to buy home filters; digital signs at canoe livery of today's water quality) Measurable improvement in quality of Allen Creek watershed (using HRWC's metric) Climate Action and Clean Air Weatherization of residences/energy efficiency to reduce GHGs Emergency preparedness hubs Transportation options, walkability, "snow buddy" snow removal to encourage year-round walking and biking Encourage mixed use developments so that people don't have to drive to the store
