### **OFA Calls for Volunteers to Assist Meals on Wheels**

Ann Arbor OFA (Organizing for America) has called for volunteers for the Meals on Wheels program, particularly on **Saturday December 19th**. The Meals on Wheels program needs drivers to deliver meals on Sat. Dec. 19th, in Ypsilanti.

**If you can help feed hungry seniors, please contact Heidi Herrell by Friday, Dec. 11th. Phone: [REDACTED] email [REDACTED]** Volunteers will meet at the Meals on Wheels office, 1110 Cross St., Ypsilanti, at 10am on Sat. Dec. 19th. It will take approximately 2 hours to deliver the meals. Your vehicle will be required. This project is of particular importance because Meals on Wheels has reported that they have had to turn down clients due to

lack of drivers.

Keep in touch with OFA for further community service projects planned for January. A major food drive and educational and collection event is planned.

### WCDP Urges Continued Support for Food Gatherers

The WCDP asked everyone who attended our Annual Dinner on Saturday October 3rd to bring canned goods or non-perishable food items to donate to Food Gatherers. About 177 lbs. of food were donated. The WCDP urges all members and supporters to continue such support during this holiday season.

Food Gatherers is one of Washtenaw County's largest and most effective hunger relief programs. It is supported by a wide variety of local groups. Due to current economic circumstances Food Gatherers has issued a call for increased help. For information check: [www.foodgatherers.org](http://www.foodgatherers.org).

The WCDP Executive Board has adopted a resolution to support Food Gatherers. WCDP members and supporters are urged to bring nonperishable foods to all WCDP meetings and these items will be delivered to Food Gatherers. Members and supporters are also urged to work directly with Food Gatherers in volunteer activities.

Hi Margie

As you know, the proposed zone plan passed by 91% of the property owners in attendance at the Public Meeting on Dec 2nd. Our next step - according to State Law - is to bring the plan to city council for approval. The City Clerk has determined that the timing for this to happen is on January 4th. Would you be willing to co sponsor the resolution for this? Let me know what you think.

Thanks!!

e :)

### WCDP Urges Continued Support for Food Gatherers

The WCDP asked everyone who attended our Annual Dinner on Saturday October 3rd to bring canned goods or non-perishable food items to donate to Food Gatherers. About 177 lbs. of food were donated. The WCDP urges all members and supporters to continue such support during this holiday season.

Food Gatherers is one of Washtenaw County's largest and most effective hunger relief programs. It is supported by a wide variety of local groups. Due to current economic circumstances Food Gatherers has issued a call for increased help. For information check: [www.foodgatherers.org](http://www.foodgatherers.org).

The WCDP Executive Board has adopted a resolution to support Food Gatherers. WCDP members and supporters are urged to bring nonperishable foods to all WCDP meetings and these items will be delivered to Food Gatherers. Members and supporters are also urged to work directly with Food Gatherers in volunteer activities.

**Copenhagen Conference Kicks Off**

**COPENHAGEN 2009**

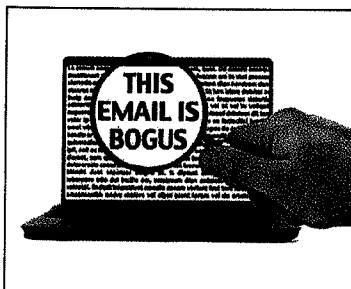

The global climate change conference kicks off today in Copenhagen.

Negotiators from 192 countries will spend the next two weeks trying to wrangle an agreement on curbing greenhouse gases.

Although more than 100 world leaders are expected to attend, one of the parties most crucial to the outcome of the talks -- the U.S. Congress -- won't even have a seat at the negotiating tables.

Our sister site, CQ Politics, will be tracking the conference at the [Copenhagen 2009 blog](#). You can also follow [their Twitter feed](#).

**Six Tips from Snopes.com on E-mails**

For an apolitical guy, David Mikkelson spends a lot of time chasing political rumors.

Since 1994, the former computer programmer has run the popular Snopes.com Web site, which is devoted to verifying — or more often, debunking — urban legends passed around the Internet.

Named for a notorious family in a series of novels by William Faulkner, the site started by focusing on Disney-related rumors, but Mikkelson now spends around 85 percent of his time on

political issues.

Over the years, Mikkelson has developed a few theories about how chain e-mails get started.

## Congress' Big Mac Attack

Big Mac, large fries and a large Coke: That'll be 1,350 calories.

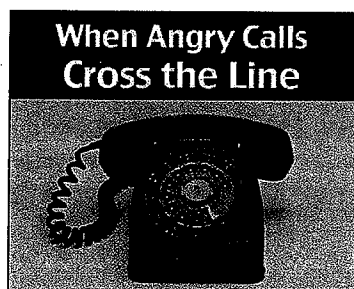

If Congress has its way, you'll soon be as familiar with the nutritional content of your fast-food combos as you are with their prices.

The House and Senate health-care reform bills include provisions requiring fast-food chains to post calories counts on their menus. Separate House and Senate bills would have the same effect.

The measures are designed to curb the epidemic of obesity in the United States. But do they work?

## When Angry Calls Cross the Line

Members of Congress often use violent imagery to make a point: they make threats, hold bills hostage, or even try to kill legislation.

Their constituents, however, should be careful using similar language or they might find themselves in trouble with the police.

Under federal law, threatening a Member of Congress or other federal official is a felony, punishable by up to six years in prison.

There are no clear guidelines on what exactly is against the law, but law enforcement officials say that wording is crucial.

I really like this idea of building a database of skills available in the neighborhood. This is what re-localization is all about. I am more than happy to spearhead a project collecting this info, and posting so it is available for all of us online. I for one would choose to spend my money on local neighborhood carpenters, electricians, plumbers, accountants, graphic designers, dentists, doctors, massage therapists, etc. You get the idea. Then to be able to trade/barter/exchange services of similar value from one another, now that's community!!!

I hope others would be willing to share the professions and skills that make up this very talented burns park neighborhood. We all have something to offer!

I hope you are not blind to Mr. Fraser's comments. Even the police chief knows that there has been cost savings brought forward by the fire department. The police chief himself was suppose to take cost saving ideas to all of you on Saturday. How long will all of you let Fraser reduce our city. This is Our city not his. You all have the final say. If you need clarification of what has been offered, go to the union president. Mr. Fraser will not stop cutting until what? there is nothing left. Remember he does not live here. Why are you letting him do this? It is time to cut, it is time to cut Mr. Fraser out of Our city.

**Subject:** Citizen Safety Concern

I am writing to hopefully get all of you to really consider the safety and well being of all of us Ann Arbor residents. Yes I am a resident and yes I am a city employee. No I am not a firefighter. I chose to be anonymous due to concern of backlash from my department head. Recently, there was a structure fire that resulted in the death of three residents, and I read that the response time was an issue according to Mr. Fraser. So I believe that Mr. Fraser knows the importance of a quick response time and I hope you do to. But I still cannot get over the fact that you would consider cutting our fire department again. If you cut the proposed 14 firefighters, you do understand that you will have to close one or possible two fire stations. I know that there is 5 districts (wards) that you represent. There is also 5 fire stations that almost outline the same coverage as the wards. I wonder how it will be decided as to what fire station(s) will be closed. Maybe the one closest to your home? I know that the economy is bad and we have to have balanced budgets, but we are not as bad off as alot of the cities here in Michigan. There has to be a priority put on public safety. Just how much will you understaff our public safety departments? Time is very crucial in any emergency whether it be a fire or a life threatening emergency. I just hope that I will be protected and that the fire station closest to my home does not get closed. What about you? Will you tell your spouse or loved one, your children, and your neighbors that you chose to close yet another fire station which could ultimately result in their death. Even the cut in the number of firefighters alone will have a devastating affect on how they operate. Mr. Fraser knows this, he has told them that they would have to change the way they do things. You know what this means? They go to a defensive attack on the fire ( this means no one goes in). I would hope it is not a loved one or someone you know that might be trapped inside a burning building if you decide to do these cuts. Please think about our safety here in Ann Arbor. You know we never really think about the fire department until we have an emergency in our own lives and need them. What then if they are not there?

This email has been sent to officials in Detroit, Ann Arbor, Grand Rapids, Lansing and Flint Michigan.

You are invited to review an eBook entitled The Productivity Chain. It could help to solve many of the jobs and business development problems in your region.

eBooks are part of the new world. They are far superior to traditional educational text books in that they can provide on line advice from experts and kept current at all times. This kind of innovation could give the City of Ann Arbor a competitive edge and a new direction. If you like the idea and are prepared to offer it on your web site, we will reduce the cost to \$2.50 per book. If after reading the book you feel it is unsuitable, we will return your original purchase price.

This innovation can create as many as 30,000 jobs in Michigan. In the new global economy it's the workforce that attracts the investment, not the mortar and bricks. Productivity is a game and the world is the playing field. When the citizens of the City of Ann Arbor understand the game, they can make sure that the productive outcomes have the highest value anywhere.
