

## MEMORANDUM

TO: City Planning Commission  
FROM: Brett Lenart, Planning Manager  
DATE: September 1, 2020  
SUBJECT: **City Planning Commission FY21 Work Plan**

### PROPOSED CITY PLANNING COMMISSION MOTION

The Ann Arbor City Planning Commission hereby adopts the City Planning Commission FY2021 Work Program.

During a working session, the Planning Commission held discussions to consider upcoming work. This discussion is summarized in the attached workplan, which is being presented here for adoption.

I have concerns about the overall volume of work on this Workplan as currently drafted. I would suggest that the Planning Commission consider prioritization of items through the following possible approaches:

- Remove 5-6 Ordinance Projects from anticipated work this year.
- Consider which projects may be developed in conjunction with subcommittees created and/or appointed by the Planning Commission.

Additionally, the City Council recently adopted aggressive Carbon Neutrality goals, that include several land use related goals such as:

- Expand and improve local transit
- Implement the non-motorized transportation plan
- Develop mixed-use neighborhoods
- Preserve and enhance the local tree canopy

While some of these goals are addressed in identified work plan goals, it may be desired for the Planning Commission to consider more direct attribution to these goals and/or other actions.
