RESOLUTION TO ELIMINATE THE \$100 PREFERRED
PARKING SPACE PROGRAM

Whereas, Rate structures in the Parking System should be competitive and respond to the market demands of the consumer as well as simple to administer; and

Whereas, The existing "reserved" parking space program leads to confusion and anger from other regular permit holders and short term parking users; and

Whereas, The revenue implications are relatively minor compared to the goodwill that would be created with the general public;

20 holders x \$40 x 6 months = \$4800 less fees generated by hourly sale of that space which could possibly even be a net gain to the revenue stream (20 spaces x 154 days x 12 hours x .40/hour x .5 use rate = \$7392 as an example);

RESOLVED, That the City of Ann Arbor abolish the "reserved" parking space program provided that existing permit holders are allowed to purchase "regular" parking permits for the structure where the space is located and at the approved rate scale. Whereas, The City of Ann Arbor and Washtenaw County have separate singular Risk Management and Public Purchasing programs which represent significant annual costs to the City and County and current demands for increased services in a context of limited revenues require that governments be more efficient and creative in providing
