Resolution to Approve Amendment No. 3 to Extend the Professional Services Agreement with Stantec Consulting Michigan, Inc., for Water Treatment Professional Engineering Services (\$200,000.00)

This memorandum and resolution requests approval of Amendment No. 3 to the professional services agreement for professional engineering services with Stantec Consulting Michigan, Inc. (Stantec). Council approved a professional services agreement for \$200,000 through FY19 with Stantec in June 2016 as part of Resolution No. R-16-213, Amendment No. 1 in March 2017 as part of Resolution No. R-17-080 for \$410,140.00, and Amendment No. 2 in November 2017 as part of Resolution R-17-407 for \$200,000.00.

The City is seeking to amend the professional services agreement with Stantec to accommodate additional professional engineering service needs and extend the existing contract for an additional year, through FY20. The original task-based contract was effective FY17 through FY19. Stantec is currently supporting Public Services on numerous projects within the Water Treatment Services Unit (WTSU). As of the end of FY19, Stantec has completed Barton Turbine Overhaul investigation, bathymetric survey of Barton Pond, Ozone Chiller Replacement study/design/bid, and Geddes Dam Recoating and Repairs design. Currently, Stantec is working on the Ozone Chiller Replacement construction phase, the Barton Raw Water Pump Station Improvements and the Intake and Raw Water Main Replacement design, as well as providing miscellaneous hydroelectric dam/FERC regulatory assistance and electrical services. Stantec has demonstrated themselves to be experienced in a wide range of disciplines, responsive and cost effective in meeting those diverse needs on complex engineering tasks associated with the WTSU.

Additional professional engineering services are required to support the Water Treatment Services Unit with capital, operation, and maintenance projects at the Water Treatment Plant and associated facilities, recreational dams, and hydroelectric generating dams and maintain the aggressive capital improvement project schedule through FY20. The requested amount was determined based on

forecasted engineering services needs and work assignments.

Based upon the remaining capital needs, it is recommended that City Council approve Amendment No. 3 to the professional services agreement with Stantec, to provide additional Professional Engineering Services for the remaining life of the contract, and extend the contract through FY20.

Stantec complies with the requirements of the City's Conflict of Interest, Non-Discrimination and Living Wage ordinance.

Budget/Fiscal Impact: These engineering services are to be funded from the approved FY19 Water Supply System Operations and Maintenance budget, Parks Maintenance and Capital Improvement Millage, the General Fund operating budget and FY19 capital improvement plan budget, for which services are rendered. Services for FY20 will be funded from the operating or capital budgets for these fiscal years if so approved by Council. Tasks will be assigned on as-needed basis to the appropriate fund.
