Resolution to Approve Amendment No. 1 to Contract with Earth Tech, Inc. for the Provision of Environmental Consulting Services for Broadway Village at Lowertown (\$49,662.00)(**8 Votes Required**)

Attached for your review and action is a resolution to approve the amendment of the current contract with Earth Tech, Inc., for the provision of environmental consulting services in conjunction with the Broadway Village at Lowertown development project.

On May 7, 2007, the City entered into a contract with Earth Tech, Inc., to provide environmental services in conjunction with the Broadway Village at Lowertown development project. At the time of entering into the contract, it was anticipated that the length of service would be short-term and that less than \$25,000 would be required. Subsequently, it has been determined that additional services are necessary resulting in the need to contract for more than \$25,000 requiring City Council authorization.

We have reached a point in the review of this project where it has become necessary to provide additional services beyond what was originally considered in order to continue an appropriate level of environmental review on this project. As with other professional services associated with this project, the developer is paying the cost for the services and there will be no cost to the City.
