Resolution to Approve an Agreement with the Michigan Department of Transportation for the Seventh Street Traffic Signal Interconnect Project (\$829,640.00)

Attached for your review and consideration, please find a resolution to approve a contract agreement between the City of Ann Arbor and the Michigan Department of Transportation (MDOT) for the construction phase of the Seventh Street Traffic Signal Interconnect Project. The agreement defines the cost sharing of the construction, as well as each party's rights and responsibilities, and is required for the project to receive its share of federal funding from the Congestion Mitigation and Air Quality Improvement (CMAQ) Program.

The Seventh Street Traffic Signal Interconnect Project consists of delivery and installation of a traffic signal interconnect and adaptive control system at existing signalized intersections along Seventh Street from Scio Church Road to Miller Avenue and along Scio Church Road from Maple Road to Seventh Street, to improve traffic condition monitoring and traffic signal operations in this area. Construction is expected to begin on or after September 30, 2016.

Completed plans were submitted to MDOT in April of 2016, and the project was advertised in the August 5, 2016 MDOT bid letting. This memorandum and resolution were prepared prior to the letting date so bid results were not available. MDOT will award a contract to the qualified low bidder and administer the contract. The City will act as the project engineer.

Budget/Fiscal Impact

The Engineer's Estimate for the project's construction is \$829,640.00. In total, the City will be receiving about \$823,640.00 in federal funds for this project. The federal funding will be used to fund construction expenses. The City will be funding the design and construction engineering costs. Funding for this project is available in IT capital project budget as communication fiber connections will be cross utilized.

A breakdown of the project revenues are shown below:

 Federal CMAQ Funds (FY16)
 \$ 823,640.00

 IT Capital Project Budget
 \$ 6,000.00

 TOTAL
 \$ 829,640.00

Prepared by: Nicholas Hutchinson, P.E., City Engineer
