Resolution Encouraging City Council to amend the "Resolution Creating the Ann Arbor Energy Commission"

Whereas, The Energy Commission was created in 1985 by City Council resolution R-552-1-85;

Whereas, The energy issues facing the City have evolved since the Commission's creation and the Commission believes that its role should be modified to reflect this evolution;

RESOLVED, That the Energy Commission recommends that City Council modify the resolution that created the Energy Commission as follows:

Section (1)

Include no less than one council member liaison and that all members shall be appointed after consultation with the Commission Chair.

Section (4)

- (a) Change "energy efficiency" to "energy and climate".
- (b) Change "municipal and community energy efficiency" to "municipal and community energy and climate" and add "in collaboration with the Environmental Commission" at the end of the paragraph.
- (c) Change "energy production and efficiency projects" to "energy-related climate projects".
- (d) Change "energy production and efficiency projects" to "energy related climate projects".
