Resolution to Approve a Contract with All Star Power Excavation L.L.C. to Renovate the Pathway Near the Boat Launch at Gallup Park (\$245,209.00)(ITB 4638)

Attached for review and action is a resolution to approve a \$245,209.00 contract with All Star Power Excavation L.L.C. to renovate pathways at Gallup Park.

Budget/Fiscal Impact: Funding is available in the approved FY2021 Park Maintenance and Capital Improvement Millage budget.

Project Description: The boat launch path, running along the north bank of the Huron River from the boat launch to the Gallup Livery, is in need of repairs. The Parks and Recreation Open Space Plan (PROS) prioritizes the repair and replacement of pathways to maintain safety and usability. Additionally, this pathway does not currently meet AASHTO standards and the PROS plan recommends updating to these standards when renovating existing pathways. New ADA picnic tables and benches will be installed along the path to provide for a better user experience.

Path repairs and reconstruction are identified in the CIP and PROS plan as park priorities. Additionally, the project meets multiple Sustainability Goals, including:

- Safe Community
- Active Living and Learning
- Transportation Options

The contract documents for the project were bid through the City's Procurement Unit following standard procedures. Two options were bid to allow for purchasing flexibility:

- Option A would crush the existing path and use that material as a new base to pave over.
- Option B would excavate the existing path and add a new limestone aggregate base to pave over.
- While both Option A and B will provide the park with a new surface that will withstand the

heavy daily use, Option A is preferred for this stretch of path in Gallup Park due to the following reasons:

- Requires less construction equipment and traffic to an area of the park with space constraints and construction access challenges.
- Reduces the amount of construction waste needing to be removed from the park.
- Lower construction cost

Due to proactive measures of controlling stormwater, both Option A and Option B provide for a lifespan of 20+ years. Option B may extend the life an additional 5 years.

Six bids were received an opened August 5, 2020. The lowest responsible bid is from All Star Power Excavation, L.L.C. in the amount of \$245,209.00 for Option A (crush & shape) and \$365,743.00 for Option B (new path base). Below is a tabulation of the bids received for the project.

Contractor	Option A	Option B
All Star Power Excavation, L.L.C.	\$245,209.00	\$365,743.00
Asphalt Specialists Inc.	\$298,325.00	\$372,465.00
LJ Construction, Inc.	\$324,549.00	\$435,119.00
Best Asphalt, Inc.	\$325,111.00	\$454,393.50
Gibraltar Construction	\$306,854.32	\$388,777.32
Fonson Company, Inc.	\$333,225.00	\$461,755.00

Staff is recommending awarding a contract to All Star Power Excavation L.L.C. in the amount of \$245,209.00 for Option A improvements to the segment of path near the boat launch at Gallup Park. A 10% construction contingency (\$24,520.90) is requested to cover potential contract change orders to be approved by the City Administrator. It is requested that a \$269,729.90 contract and contingency amount be approved for the life of the project without regard to fiscal year.

The Parks Advisory Commission recommended approval of this contract at their September 15, 2020 meeting.

Prepared by: Adam Fercho, Landscape Architect IV
