Resolution to Approve a Conditional Contract Award to Site Development, Incorporated for West Park Improvements, Total Construction Project Budget of \$1,587,300.00 and Appropriate Project Funding of \$1,374,082.00 from the Stormwater Fund **(8 Votes Required)**

Attached for your review and action is a resolution to approve a conditional contract award with Site Development, Incorporated in the amount of \$1,443,000.00, a \$144,300.00 for improvements to West Park, per Bid #4052, a construction contingency and a total construction project budget of \$1,587,300.00 to be funded in part by an appropriation of \$1,374,082.00 from the Stormwater Fund.

The West Park project was initiated to update the master plan for the park, one of the historic jewels of the City, located close to downtown Ann Arbor. Council action on the attached resolution will approve a construction project, and funding, to begin the implementation of the park's master plan.

A series of three public meetings and two presentations before the Park Advisory Commission were held to obtain input and support for this project. This project was identified as part of the Allen Creek project plan, with the Allen Creek Statutory Drain Board approving the project plan and agreeing to implement the recommended alternatives. The input included a strong desire to showcase stormwater improvements, to maintain and enhance recreational amenities and programming, and to provide better access to and through the park.

The project features the implementation of a stormwater master plan as well as pathway enhancements, stair replacement, seating built into the hillside at the historic bandshell, a boardwalk and wetland overlook, reconfigured parking, basketball court and native prairie and wetland plantings. The plan incorporates best management practices including bioswale wetlands and hydrodynamic separators that will reduce sediment and phosphorus inputs to Allen Creek from non-point sources.

These stormwater Best Management Process (BMP) improvements have been approved for funding

through a low interest (2.5%) State Revolving Fund (SRF) loan to the Washtenaw County Water Resources Commissioner (Resolution 09-390). The County has also applied for American Recovery and Reinvestment Act (ARRA) funding, which would reduce the loan amount by 40%.

The project is being funded by the Park Maintenance and Capital Projects Millage (\$213,218.00) and the City's Stormwater Fund (\$1,374,082.00), with the City's Stormwater Fund being repaid by the State of Michigan's Stormwater Revolving Fund (SRF) program, through a loan agreement. The loan closing is scheduled for January 2010, and if completed, the award of the contract with Site Development, Inc. will be finalized. Construction is scheduled to begin in the spring of 2010. The Park will be closed to the public during the 2010 summer season, with recreational sports and concerts being relocated to other venues.

Requests for bids were advertised on the City's website and on the MITN site. Twelve companies submitted bids for the project as follows:

Site Development, Inc.	\$1,443,000.00*
Bernco, Inc.	\$1,529,000.00
Anglin Civil Constructors	\$1,547,027.45
D & R Earthmoving	\$1,554,250.00
C & G Myers	\$1,627,416.00
ABC Paving Company	\$1,678,000.00
Fonson, Inc.	\$1,695,000.00
Angelo Lafrate Construction	\$1,824,000.00
Blaze Contracting	\$1,887,000.00
E.T. MacKenzie Company	\$2,086,269.00
Warren Contractors and Dev.	\$2,089,000.00
L.J. Construction, Inc.	\$2,198,000.00

\*Lowest responsible bidder.

Site Development, Inc. received Human Rights Approval on October 21, 2009. The contractor complies with the living and prevailing wage ordinance.
