Resolution to Authorize Payment to the Washtenaw County Road Commission regarding the East Huron River Drive Bridge over Pittsfield-Ann Arbor Drain (aka Malletts Creek) Project (\$33,781.00) Attached for your review and approval is a resolution to authorize a payment to the Washtenaw County Road Commission (WCRC) to perform sanitary sewer work as part of their East Huron River Drive Bridge over Pittsfield-Ann Arbor Drain Project.

The Washtenaw County Road Commission (WCRC) is undertaking a project to rehabilitate the East Huron River Drive bridge over the Pittsfield-Ann Arbor Drain (aka Malletts Creek). The City has two sanitary sewer trunklines which are attached to the underside of the bridge deck. The City-owned pipe supports located under the bridge are in need of rehabilitation.

An agreement was entered into with the WCRC on February 17, 2017 to have the pipe support rehabilitation work performed as part of their bridge project at an estimated cost of \$20,000.00 based on the engineer's estimate. The WCRC conducted a formal bid process and awarded a construction contract to the lowest responsible bidder, Anlaan Corporation ("Contractor"). The Contractor's bid amount for the City's portion of the work is \$30,710.00.

The WCRC will have the contractual relationship with the Contractor, and the City will reimburse the WCRC for its portion of the work. The attached agreement between the City and the WCRC establish the rights and responsibilities of the WCRC and the City relative to the work, including the funding, implementation, and method of payment.

Budget/Fiscal Impact

The cost for the City's share of this project is estimated to be (\$30,710.00) and a 10% contingency of (\$3,071.00) is available in the approved Sewage Disposal System Capital Budget.

Sustainability Framework

This work furthers the Safe Community, Sustainable Systems and Healthy Ecosystem goals of the City's Sustainability Framework.
