MOTIONS AND RESOLUTIONS

R-19-1-06 APPROVED

**Resolution to Annually Update Formula Calculation
for a Per-Unit Contribution Amount for Affordable Housing Contributions for Planned Unit Development
Districts**

**Whereas, It is the intent of the City Council to promote a full range of housing choices as a part of the
Planned Unit Development (PUD) district regulations;**

**Whereas, Section 5:80 of Chapter 55 of Ann Arbor City Code allows for additional density in a PUD
development if affordable housing for lower income households is provided;**

**Whereas, Individual site and economic factors may make the development of on-site affordable housing for
lower income households less desirable than providing affordable housing through other means, such as
monetary contributions;**

Whereas, The purpose of the PUD affordable housing contribution is to establish a per-unit amount that

would be accepted by City Council in lieu of providing housing units within a PUD;

Whereas, The affordable housing contribution is a per-unit payment that serves to offset the difference between the cost to purchase a moderately priced housing unit that is available on the market and the sales price that is affordable to a lower income household; and

Whereas, This formula will be prorated for projects of 9 units or less to counteract the high per-unit burden for smaller developments;

RESOLVED, That a petitioner for a PUD Zoning District that proposes to provide affordable housing in accordance with the requirements of Section 5:80(2) and 5:80(6)(e) of Chapter 55 of Ann Arbor City Code may request that the City accept an affordable housing contribution in lieu of the required affordable units;

RESOLVED, That City Council may approve a request for an affordable housing contribution in lieu of the required PUD units at its sole discretion;

RESOLVED, That City Council will use the following formula to determine the per-unit affordable housing contribution for each fiscal year for PUD Zoning Districts where there are 10 or more units:

- 1) A moderately priced housing unit will be determined by calculating the 40th percentile of all residential property sales (excluding vacant land and commercial property) in the City of Ann Arbor from February, March and April of the previous fiscal year, using public information provided by the City of Ann Arbor Assessor.
- 2) A sales price that is affordable to a lower income household will be determined by multiplying two (2) times the income of a family of four at 80% Area Median Income (AMI), as published by HUD.
- 3) The difference between the moderately priced housing unit and a housing unit affordable to a lower income household shall determine the affordable housing contribution for each affordable housing unit that is required in the PUD.

RESOLVED, That for all PUD projects that have not submitted a plan for site plan approval as of March 1, 2006, the FY 05-06 affordable housing contribution for each unit required by a PUD Zoning District is \$89,000.00;

RESOLVED, That for PUD Zoning Districts with 1-9 total dwelling units, the affordable housing contribution shall be pro-rated by multiplying the amount of the affordable housing contribution for one dwelling unit by the following:

9 units	0.9 of the per-unit amount	\$80,100.00;
8 units	0.8 of the per-unit amount	\$71,200.00;
7 units	0.7 of the per-unit amount	\$62,300.00;
6 units	0.6 of the per-unit amount	\$53,400.00;
5 units	0.5 of the per-unit amount	\$44,500.00;
4 units	0.4 of the per-unit amount	\$35,600.00;
3 units	0.3 of the per-unit amount	\$26,700.00;
2 units	0.2 of the per-unit amount	\$17,800.00;
1 unit	0.1 of the per-unit amount	\$ 8,900.00;

RESOLVED, That PUD affordable housing contributions received by the City shall be deposited in the Affordable Housing Trust Fund, to be used to develop affordable housing units in the City;

RESOLVED, That City Council will review information provided by the Office of Community Development on an annual basis and may adjust the formula at the start of the fiscal year if necessary; and

RESOLVED, That affordable units and/or affordable housing contributions required as part of a PUD Zoning District approval shall be secured through contractual arrangements, restrictive covenants, resale and rental restrictions or other available legal remedies, as determined to be necessary by the City Attorney.

Councilmember Greden moved, seconded by Councilmember Teall, that the resolution be adopted.

On a voice vote, the Mayor declared the motion carried with one no-vote made by Councilmember Johnson.

R-32-1-06 APPROVED

Resolution to Oppose Senate Bill 777, a bill to amend 1965 PA 329, entitled "Michigan seed law," - MCL 286.701 to 286.716

Whereas, SB 777 would reduce local control over the use and planting of seeds, including the seeds of species on the City's invasive species list and of genetically engineered organisms;

Whereas, SB 777 would prevent the City of Ann Arbor from enforcing the provisions in its Wetlands Preservation Ordinance (Chapter 60) that prohibit the use of invasive species in wetland mitigation plans, and would interfere with the City's planned revision of its Landscape and Screening Ordinance (Chapter 62) to protect against the use of invasive species in landscape plans;

Whereas, The resulting lack of local control would allow the seed of invasive and genetically engineered plant species to be used in an unregulated way, encouraging their escape into natural areas and increasing the likelihood of ecological damage to native plant communities;

Whereas, The hybridization of invasive species with plants containing genetically engineered herbicide resistance would reduce the effectiveness of the herbicides that are currently used to control those invasive species;

Whereas, The cost of removing invasive species in park natural areas would increase due to the establishment of new invasive species populations, and of herbicide-resistant invasive species;

Whereas, Threatened and endangered plant species rely on special and unique natural areas that are susceptible to competition from invasive plants, and the protected plants would be at greater risk of extinction due to the expansion of invasives;

Whereas, The ecological quality of wetland mitigation areas built within the city as compensation for permitted wetland impacts would be lower, because it would not be possible to prevent site plans from using invasive species, and

Whereas, Any limitation on local governments' ability to regulate the use of invasive or genetically engineered seed prevents the rapid and thorough local response necessary to effectively control newly discovered environmental problems resulting from the use of those seeds;

RESOLVED, That City Council opposes the passage of SB 777; and

RESOLVED, That the City Administrator be authorized to take the necessary actions to ensure that the City's interests are presented to state lawmakers.

Councilmember Greden moved, seconded by Councilmember Teall, that the resolution be adopted.

On a voice vote, the Mayor declared the motion carried unanimously.

R-33-1-06 APPROVED

**RESOLUTION TO AMEND CRITERIA FOR RESIDENTIAL
PARKING PERMIT PROGRAM**

Whereas, Council adopted “Criteria for Residential Parking” (Criteria) in 1989 when the related ordinance section 10:66 was passed;

Whereas, The Criteria have been amended by Council on 8/17/92, 4/19/04, 5/16/05, 8/1/05, and 11/10/05; and

Whereas, Council has become aware of circumstances that require another amendment to the Criteria;

RESOLVED, That Council amend the Criteria, as last amended on 11/10/05, to add the following two Criteria:

- A household with property adjacent to a street in an approved residential parking permit district, but which has a street address on a block that is not in the district and on which block no residential permit parking is established will be treated as if it is located within the approved district. A resident of such a household may obtain a residential parking permit for parking on streets within the approved district under the same terms and conditions as provided in these Criteria for residents of a household with a street address on a street that is within the approved district.

- The resident innkeeper of a bed and breakfast (B & B), as defined by any state law definition of B & B, may apply for and receive a maximum of eight (8) annual transferable permits for use by B & B guests only. These permits shall be available at the same cost established by council resolution for residential permits. The resident innkeeper and other residents of the B & B may also obtain permits under the same terms and conditions as provided in these Criteria for residents of a household.

RESOLVED, That the Administrator is authorized to take any other necessary administrative actions to implement this resolution.

Councilmember Rapundalo moved, seconded by Councilmember Lowenstein, that the resolution be adopted.

On a voice vote, the Mayor declared the motion carried unanimously.
