RE: 1140 Broadway

As a longtime downtown Ann Arbor resident (445 S. 4th Avenue), I am writing in support of the proposed project referred to as 1140 Broadway. The plans include features that are appealing to those that value a lively and appealing downtown, including compelling architecture, mid-rise height, and numerous public benefits. So many areas in downtown Ann Arbor are thriving and family friendly -- I hope that this project is approved so that the development at 1140 Broadway can be added to the list.
