Ginny,

First, a big Thank You! for organizing a wonderful, informative tour yesterday. I've lived in Ann Arbor my whole life but never really thought about the farms and preserves on the outskirts of the city. I also never knew about the coordination and cooperation of the city, townships and county towards land preservation.

You put together a great map showing the stops on the tour. My only suggestion would be to somehow label the major roads on our route, Liberty, Zeeb, Wagner, Whitmore Lake, so we can know where we're driving. I kept looking for street signs to get my bearings.

Also, the box lunch was delicious! Thanks for arranging that as well.

I was glad to hear the tour will become an annual event, I certainly will be going again. Although as I spread the word, there may be competition for seats!

Regards,

Stephane Buttray
