Subject: Proposed Stone School Road Special Assessment

In response to the special assessment notice for Stone School Road, I would like to formally protest the need for a special assessment. Millions of dollars have been spent to put in an underground parking structure, and yet there isn't enough money in general funds to pay for the necessary repaving of a major Ann Arbor street. I also object to the targeting of a lower income area for the payment of such a special assessment. Such action violates the trust that we have with city government. I ask that general funds be used for the road reconstruction, and that the special assessment be denied.

Sincerely,

Michael Kines

Stadium and S. Main neighbors,

I am writing to advise you of an Emergency Response Exercise that will be taking place at Michigan Stadium this Wednesday July 9, 2014.

The exercise will take place from about 9:00 am until noon and activities will be concentrated primarily along the north side (Keech Street) of Michigan Stadium.

It is not expected that sirens will be used nor should area neighbors hear any other evidence of the exercise taking place. However, you should expect to see a large number of law enforcement agency, fire department, ambulance and other emergency response vehicles and personnel in this vicinity on that morning.

The block of Keech Street between Main and Greene streets is scheduled to be closed during the exercise. No other neighborhood or traffic disruptions are anticipated

You are welcome to write or call with any questions.

Jim Kosteva
UM Director of Community Relations
763-5554
