

**Families within 100 feet limit against rezoning Nixon  
Farm North Properties**

We the residents of Nixon North who live within 100 feet of the development are opposed to the rezoning of Nixon Farm North Properties to R4A. While we are not opposed to the development of these properties, we realize that an R4A designation will bring density that will only further increase the traffic congestion we are already experiencing. It will challenge the watershed of Traver Creek, destroy vital indigenous wetlands and likely present water incursion problems in the neighborhoods at a time when changing weather patterns already challenge the infrastructure of the city. We urge you to visit the area, explore the creek and the associated wetlands, and observe the rush hour traffic back-ups even while school is not in session.

The Northeast Area Plan does not represent the views of the residents living in this area. The development that will commence following a zoning designation to R4A is not compatible with other complexes on Nixon Road, Green Road or even Huron Parkway. With respect to the vote by City Council on August 17, we are objecting to the rezoning of the Nixon Farm North Property and urge Council to deny this rezoning request.

TO:

The Mayor and the City Clerk of Ann Arbor:

My wife and I have been proud owners of the 'House turned Home' at 3086, North Fox Ridge Court, Ann Arbor, MI 48105 since 1994. This dream house was our first purchase and we have been in love with the house from the first day on....

Not once did we question or complain about the unprecedented growth of Ann Arbor, however, the recently proposed rezoning of the Nixon Farm North and Nixon Farm South adds unwanted turmoil in our lives. Our property at 3086, North Fox Ridge Court is within 100 feet west of the Nixon Farm North and we object to the proposed rezoning of the Nixon Farm North and Nixon Farm South.

There is no other place as scenic or peaceful as our patio and the Sun room, from where we cherish the calm, serene, the colorful trees, sunshine, birds, and deer. This picturesque setting, we delight in, without leaving our home all throughout the year.

If Ann Arbor has a tremendous attraction of having the world famous University of Michigan within its boundaries, Ann Arbor also has properties such as ours that are indispensable by any other measures. Please help us retain the purpose behind making this 'Our Home' for generations to come.

We object to the proposed rezoning of the Nixon Farm South and the Nixon Farm North in order to keep and maintain the beauty that Ann Arbor has brought to our lives for the last 2 decades.

My wife and I continue to be proud owners of our 'first home.' We both know that your decision to block this proposed rezoning will keep Ann Arbor what it has meant to us and many others for years to come.

We thank you for your leadership and support of Ann Arbor and its dwellings within the boundaries of the city-what it has stood for over the last century.

Our gratitude abounds in limitless amounts for not rezoning the Nixon Farm north/ South

We urge you to visit the area, explore the creek and the associated wetlands, and observe the rush hour traffic back-ups even while school is not in session.

The Northeast Area Plan does not represent the views of the residents living in this area. The development that will commence following a zoning designation to R4A is not compatible with other complexes on Nixon Road, Green Road or even Huron Parkway. With respect to the vote by City Council on August 17, we are objecting to the rezoning of the Nixon Farm North Property and urge Council to deny this rezoning request.

Foxridge Family against rezoning Nixon Farm North  
and South Properties

We the residents of Nixon North and South are opposed to the rezoning of Nixon Farm North and South Properties to R4A. While we are not opposed to the development of these properties, we realize that an R4A designation will bring density that will only further increase the traffic congestion we are already experiencing. It will challenge the watershed of Traver Creek, destroy vital indigenous wetlands and likely present water incursion problems in the neighborhoods at a time when changing weather patterns already challenge the infrastructure of the city. We urge you to visit the area, explore the creek and the associated wetlands, and observe the rush hour traffic back-ups even while school is not in session.

The Northeast Area Plan does not represent the views of the residents living in this area. The development that will commence following a zoning designation to R4A is not compatible with other complexes on Nixon Road, Green Road or even Huron Parkway. With respect to the vote by City Council on August 17, we are objecting to the rezoning of the Nixon Farm North Property and urge Council to deny this rezoning request.
