To Whom It May Concern,

2011 APR 27 AM 10:54

I have concerns about the alcohol service at a bar in my community. It is bar called Good Time Charlie's located at 1140 South University Avenue Ann Arbor, MI 48104. My concern is that they have listed on their menu that mixed drinks, Long Island drinks, and Bomb Shots are cheaper if you order a larger amount. For instance The Bizmark is a drink on their menu with Crown Royal, Peach Schnapps, Orange Juice and Redbull. A 22oz Glass costs \$7.50 or you can order a 64oz Fishbowl of the same drink for \$14.75. By this pricing scheme it is 1 drink for \$7.50 or 3 for \$14.75. Every drink on their menu is listed with a 22oz price and a 64oz price. This is clearly discounting for quantity pricing and encouraging people to binge drink. For someone to be served a triple pour of anything is outrageous let alone serving someone a 64oz mixed drink . When I asked them about it they said that because it is intended to share it was ok. On any given day in the summer you can look on their patio and see that these 64oz fish bowls are being served to each person at a table and no "sharing" occurs. I have enclosed a copy of their drink menu and the website with the menu is listed below.

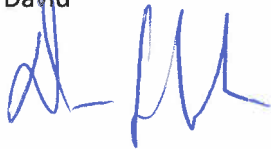

www.good-time-charleys.com/gtc_new_food.pdf

The other issue is that they have "Red Bull Bomb Phenomenon" which are shots of liquor dropped into Red Bull. They are listed 1 for \$6, 2 for \$9 or 3 for \$12. This is also blatant quantity discounting which is illegal.

I would appreciate a response to this letter. I have sent multiple emails to the MLCC in the past and never gotten response. My email address is as follows and **I wish to remain anonymous** if any action is taken. root1davidj@yahoo.com . My regular address is :

David Root
1103 Miller
