I live downtown. I am not against the idea and I would be more for it if I better understood the financing and we held a high bar on design. The tax payers should not suffer if this project does not succeed.

Given the prominent location of the resort, we should really strive to make it attractive from all sides (back and front) and not let any detail slip when it comes to design and aesthetics. Other than that, I am in favor of this as I think it will bring a lot of interest downtown and bring community to the area. Thank you for considering my commentary.

Jim
