Section 3: Findings

During the public hearings on this PUD, the Planning Commission and City Council determined that:

- (A) It is desirable to develop the land as a mixed-income development, furthering the City's goals to advance the development of affordable housing as identified in the 2015 Washtenaw County Affordability and Economic Equity Analysis.
- (B) The proposed development will advance the City's carbon neutrality goals through the development of sustainably-located and constructed housing.
- (C) The location of the site downtown, and its adjacency to the Blake Transit Center provide unique opportunities to emphasize alternative transportation methods than vehicular trips.
- (D) It is desirable to position the property for successful development, with emphasis on desired attributes.

- (E) The creation of this PUD zoning district as described above will allow a unique arrangement of development not permitted in any conventional established zoning district but which are reasonable, sustainable, beneficial, and pose no harm, threat or concern to the natural environment, surrounding area, or the City.
- (F) The land described above meets the standards for approval as a Planned Unit Development, and the regulations contained herein do not constitute the granting of special privilege or deprivation of property rights.
