Commissioner Woods,

Thank you for considering the quality of life in Ann Arbor, listening to the residents of AA, and for taking the responsibility that the commission has been given. A mistake has been made in the zoning. Excellent that it is realized before 100 years of harm is done. The staff looks for the minimum compliance and they did their job. Your job is to consider more than just their recommendation – otherwise the staff could do it all and the commission is not needed.

Thank you for speaking up after listening to your fellow citizens.

Best,

Nancy Kaplan
