Schindler hereby proposes to furnish and install the following with respect to the equipment located at the above building:

Change notice #1 = Underground obstruction

- The original Jack replacement and well drilling contract (#KKAA-CWGKGF) incorporated 2-2.5 weeks of well drilling to get down to the necessary depth to install the new larger casing. Unfortunately, on 3/14/2024, they encountered an underground bolder (shown on next page). This encounter and other underground obstruction ended up adding 2.6 weeks to the job. This change notice is only for 2 weeks and we are assuming the 3 days for the sake of the relationship.
 - The well driller ended up compromising three large auger bits in the process of getting past this bolder which took six (6) full days of drilling to mitigate.
 - Lastly, on 3/27 they encountered another obstruction underground which ended up take five (5) days to get the new larger casing down the last 4'6". This change notice is only four 4 days as 1 day is to be expected to get through 5'.
 - Additionally, there was excessive amounts of water that slowed the productivity of this project which is additionally beyond our control.
-
- This change notice is for our additional labor stand-by / assistance and the well driller's additional time/material:
