

Steve Powers,

As referenced below, The Pedestrian Safety and Access Task Force is requesting that the first reading for the snow and ice ordinance be postponed so that we can have the time to consider the suggestions from the Ann Arbor Commission on Disability Issues that City Council asked for. We have had a number of recent meetings with that group and with members of the group, and look forward to their contributions on this issue.

A short postponement until after our May meeting will still allow for time to be sure the community is well aware of any new requirements and prepare for next winter.

Thank you,

Linda Diane Feldt, Chair, The Pedestrian Safety and Access Task Force

Motion by O.Jansson; Seconded by A.Pinnell:

That the Task Force, or the Winter Maintenance Subcommittee and then the Task Force as a whole, revisit changes to the snow and ice ordinance after the Ann Arbor Commission on Disability Issues makes its recommendation and receives further input from disabled veteran groups. The Task Force also asks that City Council postpone its first reading of the snow and ice ordinance on April 20th so the Task Force has an opportunity to discuss and vote at its next regular meeting on May 6th.

Vote

Yes: L.D. Feldt, S. Pressprich Gryniewicz, O.Jansson, A.Pinnell

No: J.Rees, V. Armentrout

Abstain: S.Campbell
