Subject: The Gallery - Jefferson and Ashley

Dear Ann Arbor City Planning Commission Staff:

We own property within 300 feet of the proposed The Gallery - Jefferson and Ashley project. The Planned Project Modifications are requested to exceed the maximum required setback on Ashley by 11.77 feet and to allow a four-story street wall height.

I am not able to attend the meeting on June 6th. However, I want you to know that we believe the project will enhance the neighborhood, help meet a need for additional downtown housing, and that the developer's requests are reasonable and should be approved.

Thank you for considering our opinion.

Sincerely,

John Fingerle
