---

I am writing to encourage the city to do what ever possible to preserve the Inglis House. I am an emeritus faculty member and Dean at the University and in my career made unique and effective use of this very special place. It is very shortsighted for the University to not invest in this landmark and keep it available for use by the community. If the University is going to forfeit its responsibility for stewardship of this home I hope the city will try to compensate.

Thank you very much for considering this.
