Hello Jackie,

I'd like to propose this additional clause to DC-4. Please let me know if there's anything else that I need to do? Thank you.

Whereas, equitable community engagement specifically addresses systemic and historical inequities, injustices, and biases.

Hello Councilmembers-

During the meeting this evening, Councilmember Hayner mentioned the upcoming Citizen Participation meeting for the Brewer property. If helpful, I wanted to share that this is posted on the Planning Services Website with meeting information and a link to the letter that went out if it is helpful to share with your constituents:

Council!

Once again, you've demonstrated in no uncertain terms that our neighborhoods go without any representation whatsoever.

Why, then, do we vote for people who won't represent us? Should we secede?

All we ever ask is that what we need and want be represented and you had that opportunity tonight and you turned it down flat.

An opportunity to correct a serious injustice in the distribution of amenities slipped out of your hands.

Yes, there's a lack of senior housing but you chose to ignore the lack of distributive fairness in our neighborhood.

Council does not take our neighborhoods seriously and that stinks.

The implication is that we actually don't have any representation on Council. That's a consequence of your vote tonight.

Do you know what that means??

A project of this size could be a great use of a large geothermal district. Developers should be looking to places like veridian etc, to know what A2 wants.

I don't know if I can make it but might try.

If we are going to build, we need to get people to build what we want. And it's so hard since we are limited in being able to mandate stuff.

Title

Resolution Requesting that the City Administrator Determine the Cost and Feasibility of Supplemental Snow and Ice Removal of our Pedestrian Infrastructure to Improve Pedestrian Safety

Body

Whereas, City snowplows unavoidably place snow and ice on sidewalks, driveway aprons, bus stops and crosswalk ramps;

Whereas, Crosswalks, while in streets, are a critical component of the pedestrian infrastructure; and

Whereas, Pedestrian safety requires that crosswalks, sidewalks, bus stops and crosswalk ramps be reasonably clear of snow and ice; and

Whereas the nonprofit group SnowBuddy is developing new and creative ideas for expanding sidewalk snow removal city-wide that merit consideration;

RESOLVED, That City Council requests that the City Administrator determine the cost and feasibility of supplemental snow and ice removal of our pedestrian infrastructure to improve pedestrian safety, as well as city-wide sidewalk snow removal in partnership with SnowBuddy; and

RESOLVED, That the supplemental snow and ice removal be identified as two projects for purposes of determining cost and feasibility: 1.) removing snow and ice that city plows unavoidably dump on sidewalks, driveway aprons, bus stops and crosswalk ramps and 2.) maintaining crosswalks to sidewalk winter maintenance standards.
