Hi my name is Eric Knorpp, I own a house at 2755 Carmel . Backing up to the Weber property. Concerns for changes in the neighborhood with the proposal for rezoning to allow 50 plus houses on tiny lots with very little setbacks that do not fit into the existing home style.the builder wants affordable housing at \$280000 plus! All the neighbors have a great concern for the wildlife,deer,hawks ,owls rabbits,trees over 100 years,all would be gone so one company ,not even from the city of Ann Arbor can make millions.It would be better as a nature preserve or park letting family's to use and to not disrupt something that you can never replace if you allow the land to be used for profit.Traffic on Packard is already terrible . West bound reaching speeds over 50 mph.at Easy, accidents will increase both vehicles and pedestrian,. This developer has been building on Michigan Ave and Warner roads "Harwood Farms" since the early 2000. Ann Arbor does not need another long term building project on Packard Rd. Thank-you Eric Knorpp 2755 Carmel .
