Hi,

I'm writing this in support of the TC1 rezoning for Plymouth road. I used to stay in that area and given the large incoming student population, many of whom don't have cars it would be great if the area was denser and more walkable/bikable.

I understand the area where I currently live (3101 Asher Road) is also going to undergo similar rezoning and I fully support that. I'm in favor of denser housing, taller buildings and anything that reduces unnecessary and wasteful sprawl in Ann Arbor.

Thanks
Kunal Joshi
