Subject: Comments for Plymouth rezoning commission meeting

Dear Planning Commission

I live on Bluett Road (potentially impacted by Plymouth Rezoning) and in the past few years the noise levels have significantly increased. There is a constant hum, even in the late night. I believe it is from the highway and/or Plymouth road traffic, but am not sure. I would hope that during the rezoning determination if noise pollution is given consideration and the impact that rezoning may have on residential neighborhoods near the rezoning site.

Thanks
Evan Keller
