V. COMPENSATION OF CONTRACTOR

VI. INSURANCE/INDEMNIFICATION

- A. The Contractor shall procure and maintain from the Effective Date or Commencement Date of this Agreement (whichever is earlier) through the conclusion of this Agreement, such insurance policies, including those set forth in Exhibit C, as will protect itself and the City from all claims for bodily injuries, death, or property damage which may arise under this contract; whether the act(s) or omission(s) giving rise to the claim were made by the Contractor, any subcontractor, or anyone employed by them directly or indirectly. Prior to commencement of work under this Agreement, Contractor shall provide to the City documentation satisfactory to the City, through City-approved means (currently myCOI), demonstrating it has obtained the policies and endorsements required by Exhibit C. If the City or the ultimate user fails to follow the requirements of this subsection E, then any warranty provided by the Contractor is void.
- F. The Contractor certifies that it has no personal or financial interest in the Project other than the fee it is to receive under this Agreement. The Contractor further certifies that it shall not acquire any such interest, direct or indirect, which would conflict in any manner with the performance of the Services it is to provide pursuant to this Agreement. 1. PROGRAM MANAGEMENT:

Contractor shall provide a system whereby City employees can purchase clothing items directly from Contractor as described herein using a City-issued stipend, as well as purchase items not included in the stipend (e.g., jackets, outerwear and hats) that are covered by a City-issued allotment. The City will provide Contractor necessary information related to each employee including name, department, authorized catalog selection(s), stipend and allotment amount, and cost center, which Contractor will use to populate and administer the employee's account. Contractor shall provide a user-friendly, secure, custom website for online ordering, which mirrors that of leading online retailers and offers users a smooth, intuitive purchase experience. Contractor shall provide a fully integrated Automated Program Management System into the website to ensure that users are only allowed to purchase items that have been approved by City of Ann Arbor and that employees are not able to spend more than their allowance without providing a personal payment method, such as a credit card (which contractor shall process securely). The site shall allow City of Ann Arbor employees to easily check allowance balances, view history, place orders, check stock, check the status of an order, or track a shipment at any time by logging in to the custom website using their secure username and password.

Estimated ship dates are provided for all items prior to the order being finalized. City of Ann Arbor employees can also opt to view only those items from the program that are on the shelf and ready to ship quickly by turning on Contractor's In-stock Filter. Contractor's solution includes total program management, allowing City of Ann Arbor employees to focus on their professional responsibilities while Contractor's experienced Account Management Team manages the clothing program. FRC CARE & MAINTENANCE

Arc-rated Flame Resistant Clothing (FRC) is the "last line of defense" in the event of an arc flash or flash fire — there to protect you when all other safety measures and precautions have been unsuccessful in preventing an incident. **Make sure your FRC performs and protects as expected by following these simple steps:**

❗ **Don't Use Chlorine Bleach**
Chlorine bleach can break down the chemical bond between the flame retardant and the base fabric for certain types of FRC fabrics and can negatively impact color retention and fabric strength for all FRC fabrics.

Always follow the laundering instructions on the garment label for best results.

❗ **Don't Wear FRC That is Soiled With Flammable Contaminants**
Flammable contaminants — oil, gas, grease, etc. — can ignite during an arc flash or flash fire and cause injury even though the FRC garment will self-extinguish.

Completely remove flammable substances before the garment is worn again. To help with difficult cleaning, try applying detergent directly to the spot or dry cleaning.

❗ **Retire FRC if it is Worn Out**
To know when a garment is worn out and should be retired from service, look for thin or "thread-bare" areas, unrepaired holes, excessive wear or abrasion, and damage like rips, cuts, tears, broken closures, or torn, open, or frayed seams. If damage is minor, contact Tyndale to request a repair or a complimentary FRC repair kit. Stop wearing the garment until it is properly repaired using FRC materials.

TYNDALE'S FRC CARE & MAINTENANCE TRAINING SOLUTION:

Visit www.TyndaleUSA.com/frccare to view Tyndale's training video, which covers recommended practices for laundering FRC at home and provides guidance for understanding when a garment should be repaired or retired from service.

Tyndale Mens Pants:

The waist fits "true to size" across the natural waistline. Due to the nature of flame resistant fabrics, these pants will shrink approximately 1" in length during the first 25 washings, and will shrink a total of 2" in length during the first 50 washings. Please order your pants with sufficient length to account for this progressive shrinkage.

Vanity Sizing:

Vanity sizing, also known as size inflation, refers to the retail practice of increasing the cut of products so that consumers fit into clothing that is a size - or two - lower than they would typically wear. Tyndale's products are cut true to size, with the products designed to fit consistent with a person's actual measurements.
