Signature Michael B. Castle Date 10/28/2015

Letter of Intention

My name is Michael Castle, and I am interested in joining the airport advisory committee. I have been a full time resident of Ann Arbor since 1999 and have been a part of the airport community since then. My relevant experience at Ann Arbor Municipal airport has been as a pilot flying there recreationally, working at the Aviation Center from 2000 to 2001 and as a current hangar tenant.

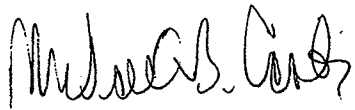

My aviation background has been one of a love of aviation as a kid, who never stopped hanging around the airport. I flew single engine Cessnas out of dirt strips in Maine, flight instructed in New Hampshire's busiest airport, and flew cargo in small, single-pilot airplanes throughout New England and Eastern Canada. I eventually moved on to larger companies and currently fly the line for Delta Air Lines, based in Detroit's pilot domicile.

I graduated from Hawthorne College with a Bachelor's of Science in Aeronautics in 1988. My pilot certificates are the Airline Transport Pilot license, Instrument Multiengine Airplane and Authorized Flight Instructor, Instrument, Multiengine Airplane. I have been a member of AOPA (Aircraft Owners and Pilot's Association) for many years, as well as EAA (Experimental Aircraft Association), Alpha Eta Rho aviation fraternity, and ALPA (Air Line Pilots Association).

Essentially, this is why I would like to be on Ann Arbor's airport advisory committee - I would like to bring my thirty plus years of aviation experience (and as a airport bum) to help keep our airport in tune with the desires of our airport users as well as the community that the airport belongs to. As a hangar tenant (hangar C-6), aircraft owner, (1968 Piper PA 28), and Ann Arbor local who lives under the approach path to runway 24, I feel I can well represent local viewpoints. We are fortunate to have such a nice facility so close to our city, and yet the airport is not a nuisance to it's neighbors. With proper planning, cooperation between users and managers as well as effective communication between different parties, we

can keep our airport the gem that it is.

Thank you for your consideration.
