Subject : 430 South Fourth Ave ZBA appeal

Date: 4/20/2017

I am the owner of the properties at 441 and 445 S. Fifth Ave, Ann Arbor. I am in support of the approving this appeal. I understand the permit was already given and plans were already made with existing and increased occupancy next year tenants. I am also in support of this improvement.

The improvement looks like it will add more safety to the property by upgrading and interlocking the Alarm system and improve the code Fire separation between the 2 Floors, it will improve the overall house condition and the neighborhood in general, the improvement does meet the set back on the code book.

Please contact me if you have any questions.
