Subject: Planning Commission Committee meeting this evening

Hello,

As an Ann Arbor resident unable to attend the Planning Commission Committee meeting this evening, I wanted to share my thoughts on the proposed site at 1140 Broadway. I have passed this vacant area either by car or bike during my daily commute to work over the past two years. While I do not typically support the building of many new high rises in our city, I support selling this property to a developer who can make the space appealing and useful for our community while creating an attractive housing option given the excellent location near Kellogg and the hospital and tackling some of the potential environmental issues that need to be addressed.

Thank you,

Erica Solway
