# GovDelivery Communications Cloud

## Digital communications platform for government

Communications Cloud is a marketing-automation platform that enables government organizations to quickly and easily connect with more constituents. As the only FedRAMP-certified marketing-automation platform, Communications Cloud is the most-secure marketing solution available for public sector organizations.

Craft messages in custom-built branded templates to provide a consistent and familiar experience for audiences across all platforms. Engage citizens with content by sending messages to a specific segment of your audience and save valuable time by crafting a single message and sharing through email, text and social media instantly.

Grow an audience through text-to-subscribe, social media promotion, other government agencies through the GovDelivery Network and by leveraging website traffic with attention-commanding subscription strategies. The simple sign-up process allows constituents to opt into receiving communication on the topics that matter to them, simultaneously allowing your organization to divide constituent subscribers by interests.

Communications Cloud delivers messaging at a higher rate, keeping emails out of spam folders and handling unsubscribes, bounces and inactive emails, allowing communicators to focus on content.

Available reports on open and click-through rates provide insight into message success and allow for continuous improvements to a marketing strategy to make each touch better than the last.

---

### GOVDELIVERY NETWORK

*Further build out subscriber lists through cross-promotion opportunities with nearby and related organizations by leveraging the GovDelivery Network, which includes over 1,800 organizations with more than 150 million citizens. With more than 50,000 new people signing up for messages from government through Granicus' solutions every day, organizations using Communications Cloud have increased subscribers by up to 500 percent.*
