Dear City Officials,
The ARPA funding is intended to help recover from the impacts of the pandemic. As a volunteer with a local social service agency and as a resident, I am aware of the devastation that so many people continue to experience these past two years. Lack of food and shelter, the very basics for sustainability, are at the forefront.

Trauma and depression are close behind. We see many clients every day who are suffering.

This is an urgent request to address these needs with ARPA funding. I realize that an election center, solar power, and bike facility, for example, may be on the City's wish list, but I think that the vast majority would agree that urgent human needs, the funding of which has been cut by the disbanding of COFU, should be a top priority. Hungry and traumatized clients need a safety net that is not being supported adequately by the federal, county, or local governments.

From the ARPA funding, please allocate

- **At least** \$4M for coordinated funding support
- **At least** \$3.5M for property acquisition for affordable housing
- **At least** \$1M for housing for homeless households

Allocating 35% of the \$24M which is intended for pandemic relief to be spent on safety net services is prioritizing a humane and moral approach to human suffering.

Thank you for your consideration,

Margie Checkoway

Dear Dr. Disch,

I am a Ward 1 resident and in watching tonight's council meeting was absolutely shocked to hear your resolution for allowing the bridge widening, with five lanes of traffic and minimal increase in Non-motorized transport space.

Were you at the Transportation Committee meeting where this issue was discussed? The UM Representative made it quite clear at that meeting that single-occupancy automotive traffic was the main reason for expanding this bridge at that meeting, saying that most patients were not currently walking or biking to appointments and therefore those users do not really deserve much roadway. Are there plans to do road diets on Fuller or Plymouth? These roads are representative of what this bridge will become, lane wise - have you ever tried to navigate those by bike or foot and if so is there some reason I'm missing to make more roads like that? Is there some research I'm missing about how adding more lanes actually does improve non-motorized transport options and reduces automobile usage?

I have been, on the whole, pleased with your voting record and past representation, especially when it comes to your leadership on the zoning and development changes. I am shocked by this last proposal and trying to understand what your logic was in making this assessment.

Thank you for your time,

Amelia Clark

Your questioning on DC-4 of Mr. Hutchinson was clear that you wanted a certain answer, and he was not giving it to you. He did not have a safety opinion, they were in support of widening, and I find it ironic that we are questioning staff on this issue but it is not okay to question on other issues.

I personally do not have a strong opinion on this, but I thought that was a little strange.

Thanks,

Eric

Dear Erica,

I just wanted to thank you so much for your words tonight. I was shocked and felt very betrayed by the proposal put forth by Ramlawi and Disch; I thought that all of these details had been hashed out in the Transportation Committee Meeting. I really appreciate your consistent and dedicated representation of what was decided during the Transportation Committee Meeting and constituent feedback sessions, and while I am flabbergasted and feel betrayed by my own council members I am so glad that you were there to defend our thoughts for the record.

Thank you again for your representation and your work for non-motorized transportation in the city, especially at this past meeting. I'm glad we have you on council.

Best wishes,

Amelia Clark

Hello Council-members,

Though I now live in Scio Township, I want to express my support and gratitude to those of you working to keep the hospital bridge wide enough for safe use by pedestrians and cyclists.

I used to commute by bike from Ann Arbor to Ypsilanti, crossing this area twice, and I always found this section to be the most precarious juncture, with many walkers and bikers crossing in the same places (because it's unsafe to bike on the road there). We've also all heard our medical worker friends bemoan the parking situation at the hospital where it seems there are no additional options for parking. An investment of a redesign for this bridge that creates more space for cars and less for cyclists, pedestrians, and those using wheelchairs would be a real lost opportunity for our community. It would also needlessly tarnish Ann Arbor and the university's stated goals on carbon reduction.

I grew up in Ann Arbor admiring my parents' non-car commuting lifestyle (my dad biked and my mom walked). I saw the ways their non-car commutes introduced them to more neighbors, benefitted their physical and mental health, and took a couple cars out of traffic snarls. Now as a working adult, I am thrilled to be benefitting from the B2B project as a mode to safely, enjoyably and easily get to work by bike. Riding the B2B makes me love living here and so hopeful about our future as a community. I would not bike to work if it didn't exist. I think many people my age (32) would like to trade in their car commutes for something better, but we need the city to lay the path. Please don't give up on advocating for people traveling by foot and wheel.

Thanks,
Elaine Ezekiel

Subject: Visioning Conversations Around Domestic Violence Survivor Support

Dear Fellow Elected Officials,

Earlier this fall, we all signed on to a letter expressing our concern, commitment and continued support to survivors and customers of SafeHouse. We encouraged the Board of Directors of SafeHouse to place the Executive Director on paid leave while conducting an independent investigation. We further stated that “We want to ensure that women in Washtenaw County have the protection and resources they need, and we will continue to advocate vigorously for this cause.”

Several months have passed. SafeHouse is providing some seemingly reduced sheltering and wrap-around services. Washtenaw County has sheltered survivors and connected them with wrap-around services. The SafeHouse Board of Directors has not shared the results of the independent investigation and has left the Executive Director on unpaid leave.

I believe we all had a vision of what domestic violence survivor services entailed before the malfunction of SafeHouse showed us the state of domestic violence services as they are in Washtenaw County. Even as a commissioner attempting to coordinate services for several survivors, I found dead-ends, well-meaning but unproductive passing around organizations, and unreturned phone calls in addition to some wonderful successes with finding help. I am not satisfied that we as a community are providing the protection and resources that women and families experiencing or who have experienced domestic violence need. I would like to see something much more robust, coordinated and expansive than the emergency services SafeHouse states they provide.

Would you please join me in a conversation to understand what services are available in Washtenaw County, and to envision what services might be desirable and attainable. This will be the first of what I hope will be numerous conversations that will ultimately include a broad representation of community stakeholders.

I am providing some times that could work. I know that we are all busy and it might be hard to find a time that works for everyone. Let’s give this a try. Would any of these times work for you? I will schedule the one that works for most of us.

Friday, January 21, 10-11 am
Monday, January 24, 12-2 pm
Tuesday, January 25, 1-4:30 pm
Wednesday, January 26, 9-11 am and 1-5 pm
Thursday, January 27, 9-11 am

This message was sent from outside of the City of Ann Arbor. Please do not click links, open attachments, or follow directions unless you recognize the source of this email and know the content is safe.

I was disappointed that you did not vote for CM Radina's amendment, it is up to the council to set policy and funding prioritizing. If you want the Deer Cull back, you should make a budget amendment and prioritize where you are taking the \$100-200,00 from, and then have a discussion. It seems like that clause was opening up consideration for the Deer Cull again, and that is not a good thing.

Thanks,

Eric

Hi Ali,

The falafel at Jerusalem Garden really brings me back to my days at University of Michigan, where I could get some amazing falafel on a college student's budget (I graduated in 2014).

However, I had some suggestions that would take your restaurant to the next level. When I went to your website, I saw that your About page was filled with a lot of beautiful history. I wonder if splitting this into concise sections would showcase this great information and increase the likelihood of reading it.

I also think because there's so much emphasis on the history of the food, it would be great to carryover this history into present day mission/values for the restaurant. It's hinted at in the About page, but creating a mission statement helps your readers, who most likely love investing in local businesses, to know what you're all about. This creates brand loyalty and community.

I love the authenticity in your food and the idea that it brings people together. I think it would add value to your brand to feature different dishes and the cultural significance, the ingredients, the pronunciations, photos, etc. I know this would make me hungry for sure!

These are just some ideas I had, but I'd love to discuss what benefits I can bring to your business as a copywriter. Do you have some time to chat this week?

Cheers,
Juhee

Dear Jen,

My name is Elke Kramer, I have been living in Ann Arbor since 2002. I am a business owner, member of the Michigan Human Trafficking Task Force, and volunteer for the Michigan Abolitionist Project and after having seen the horrible outcomes of decriminalization of prostitution in Europe, where I am from, I write you today to urge you to **KEEP City Ordinance Section 9:62 (h) in place, PLEASE do not remove this ordinance.**

1. This ordinance is an important tool that not only helps police investigate human trafficking, but also enables them to refer victims to life-saving community services. Without this ordinance, funding and service referrals may not be possible.
2. Without this ordinance, law enforcement may not stop anyone, minors or adults. Those who are exploited will not be identified, which means they are not compliant with state laws.
3. I urge you to leave this ordinance in place until the Michigan legislature has completed revision of laws related to human trafficking. Our Human Trafficking Commission is working diligently with the legislators on updating the state laws regarding human trafficking and prostitution. It is most advantageous to wait until these laws are in place and then mirror the city ordinance to the state

laws.

4. In addition, and most importantly, when addressing human trafficking via any policy, ordinance, training or practice, it behooves us to include the voices and skills of those with lived experience – human trafficking survivors. I know many survivors who gladly will assist community representatives in understanding the complexities of human trafficking and how best to address these. Please, to best address human trafficking in Ann Arbor, **KEEP City Ordinance Section 9:62 (h) in place, PLEASE do not remove this ordinance.**

Kind regards,

Elke Kramer

I was disappointed that you did not support the Amendment in DC-1, it is your job as a City Council member to set policy and not staff. It also brings up the discussion for a Deer Cull in the future that costs thousands of dollars, and would be irresponsible. I am glad that it passed.

Subject: Request from Constituent

Dear Mayor Taylor and Council Members, My name is Katie Oppenheim, an almost 30 year resident of Ann Arbor and a Registered Nurse for 45 years. I write to you today to urge you to keep City Ordinance 9:62 (h) in place.

This ordinance is important as it allows police to investigate potential human trafficking and refer victims to a myriad of available resources. As you know, Michigan has one of the highest volumes of human trafficking in the country. Without this ordinance, law enforcement may not stop adults or children. Please keep this ordinance on the books until the state legislature has completed its work on revising human trafficking laws in Michigan. This is not only a critical human rights issue, but a public health one as well. Thank you, in advance, for keeping this ordinance for the City of Ann Arbor.

Dear Mayor Taylor and members of the Ann Arbor City Council,

We, the undersigned members of the Beth Israel Congregation Board, urge you to pass unanimously the resolution condemning antisemitism in Ann Arbor. This resolution, representing the leadership of our city, would send a strong message to our citizens that hate against Jews is not tolerated in our community.

We urge you to speak with a strong collective voice to condemn antisemitic messages and actions. Treating them as mere expressions of free speech is to forget the terrible lessons across history of

silence and passivity. Allowing such expressions is to ignore their danger and to enable their threat.

We ask you to honor the principles articulated as foundational to our city. One of Ann Arbor's core values, visible on its website, is that we stand together to include and engage the full diversity of our community. History makes plain that we must always be vigilant in the fight against oppression of any groups, understanding the dangerous and irreparable consequences of standing by idly. Being on guard against hate is to stand up for a society that holds all humanity sacred.

Finally, we call upon you to take this action for the children and youth of our city. An entire generation of children of Beth Israel has grown up experiencing as normal walking past hate-filled signs to enter their synagogue. Further, an entire generation of all the other children of Ann Arbor has also witnessed hate against Jews and seen such hate tolerated. These are surely not the lessons we want the children of our community to learn. Your responsibility as leaders of this community is crucial at this time.

We need you to speak together, clearly and unequivocally, leaving no doubt that antisemitism and hate of any form have no place in our community, nor in our society. This is a collective imperative.

Subject: In support of the Resolution Condemning Antisemitism

Dear Mayor Taylor and Representatives Grand, Song, Radina and Eyer,
I feel compelled to write and thank you for sponsoring the Resolution Condemning Antisemitism especially today, in light of the frightening drama that played out all day yesterday in Texas as my colleague and several of his congregants were held hostage, .

As a resident in the 4th Ward and a member of the leadership team of Temple Beth Emeth, I am grateful for this statement and want to urge every representative to support it!

Our friends at Beth Israel Congregation have endured this outward display of antisemitism for too many years. We cannot condemn strongly enough this brazen environment of hate that continues to persist in our country and even in our area. I appreciate that our city is willing to take a stand and not only call out these cruel and intimidating acts of antisemitism but condemn it fully by resolution.

I believe strongly that by taking such a bold step, you are reinforcing our values as a

community that hate against any group will not be tolerated and any outward display to threaten or intimidate will be condemned. I hope that this resolution passes easily and that it will be a big step toward our community stamping out acts of hate against any and all of our inhabitants.

Sincerely,

Regina Lambert-Hayut 

Cantor, Temple Beth Emeth

Councilmember Eyer,

As a resident of Ann Arbor's Ward 4 I am writing to encourage you to vote for a feasibility study for municipal public power for Ann Arbor. From my experience as a graduate student focusing on the power sector, DTE's track record is highly disappointing.

While municipal power is certainly not always the most economical answer, DTE's laggardly actions toward reducing the carbon intensity of their power production and poor reliability metrics do not indicate a company that is operating under sound leadership. Ann Arbor is in a position not only to procure cleaner, and ideally more cost effective, power for its residents but to send a clear message to DTE that their performance up to date is unacceptable.

The feasibility study is a key step to Ann Arbor's continued place as a municipal leader on climate issues and I hope that you will support it.

Best,

Dear Mayor Taylor, Council members Eyer and Nelson,

As a resident of the 4th Ward, I thank you for formulating the Resolution Condemning Antisemitism that will be presented to the Board on January 18.

I urge the whole council to pass this resolution. As you are aware Antisemitism in the United States is at an all time High. As a member of Temple Beth Emeth, I am aware of the steps we need to take to have Law Enforcement as a physical presence outside and inside our building to ensure that we are able to worship safely on our High Holidays and at other times we gather at our Temple. The presence of an Armed Guard at the Jewish Community Center has also been a constant for more years than I can remember. How sad is it that we need to be constantly vigilant simply because of our religion.

It is especially frightening and outrageous that worshipers every week at our sister Congregation Beth Israel are unable to enter their building without walking past the Anti-semitic protesters outside their Synagogue. Would this be tolerated outside any other houses of worship like churches or mosques?

It is time for this to stop. Therefore, I encourage passage of this resolution by the full Council.

Thank you,

Lisa Saulles

Dear Council member Eyer,

Thank you for sponsoring the Resolution against antisemitism on the agenda tomorrow evening !

As if a reminder was needed - - the events of this weekend in Texas reinforce the urgent need for City Council to speak firmly and unequivocally against antisemitism in our midst.

As proud long-time residents of Ann Arbor we are writing all members of City Council to urge the passage - unanimously - of the resolution condemning antisemitism in Ann Arbor on the agenda of City Council tomorrow (Jan 18).

Such a statement by the leadership of our city would send a strong message to our citizens that hate against Jews is not tolerated in our community.

We must all always be vigilant in the fight against oppression of any group - because we understand the dangerous and irreparable consequences of standing idly by - and we must stand together to include and engage the full diversity of our community.

Speaking out against hate is to *stand up* for a society that holds all of humanity sacred.

We call upon City Council to take this action on behalf of he children and youth of our city:

As you know, an entire generation of children of Beth Israel Congregation on Washtenaw Avenue has grown up walking past hate-filled signs to enter their synagogue - - experiencing this as normal.

As you know, an entire generation of all Ann Arbor children has witnessed this hatred of Jews and has seen such hate tolerated - - experiencing this as normal.

These are surely not the lessons we want the children of our community to learn. Your responsibility as leaders of this community is crucial at this time.

We need you to speak together, clearly and unequivocally, leaving no doubt that antisemitism and hate of any form have no place in our community, nor in our society. This is a collective imperative.

Thank you,

Dear Elizabeth and Jen,

I saw this [article in MLive](#) today about options for connecting the B2B trail to the Treeline trail. I am **strongly** in favor of the much more affordable and much less impactful on-grade option that does not rely on expensive, elevated pathways. Working with existing bike and pedestrian paths, developing new ones along Summit Street, and reconfiguring the Main Street crossing is, in my view, a much more viable and sustainable option, and I encourage your support for it. I also support keeping as much of the planning for this connection within city control (read: decisions and accountability lie with elected representatives) while navigating partnerships with private foundations.

Sincerely,
Ian Roederer

Greetings, David. My apologies for the delayed response. The bridge to which you refer is being proposed by a nonprofit organization called the Treeline Conservancy as one option of several for a portion of the Treeline Trail plan. This is not a city-funded project; rather, the funds are being raised by the nonprofit through foundations, grants and individuals. I wholeheartedly agree about the conditions of our roads, and am continually frustrated at the state Legislature's failure to live up to its statutory obligations with respect to revenue sharing to local municipalities. Although the City of Ann Arbor has responded to the state's failure by increasing our own local funding via our streets millage, it's still not nearly enough. As your council member I have supported and will continue to support directing additional funding toward road safety improvements wherever possible.

With best regards,
Jen

Ms. Eyer,

I recently read of a proposal to build a 20 million dollar bridge in downtown Ann Arbor for pedestrians. Don't do it. As Governor Whitmer said, "Fix the Damn Roads". I've repeatedly supported requests for increase in city budget for various projects, but have continually seen that it's spent on everything other than proper maintenance of city streets. For example, Olivia St. and the blocks of west Packard from 4th Ave. to Main St., there are many more. These streets are abominable.

Hi Christopher
I hope that you've been well!

I have to say that trying to speak through the heckling happening behind me was very difficult-aren't people like that asked to quiet down or even removed? I left before I could succumb to the temptation to respond in kind when she spoke.

I really do wish that everyone on Council would take the time to see the webinar-Schmitz and Lundgren are very well respected and call into question some of the research and findings conducted by Cortote (sp?) and Prof. Dick. I'll write Lisa Disch and maybe a few others, but if there is anything you could do to promote it, it would be great. I wish Schmitz could come and present to Council-I'd pay his way!

All best
Ellen

Hello:

As an Ann Arbor resident, I am opposed to the Deer slaughter and I have always voted against those in leadership who have supported it.

Not only is it just plain mean, divisive, and not in accordance with what I understand to be Ann Arbor's values, it is a big waste of money as it has never proven necessary.

Ever since the Deer slaughter was first announced, the supposed justifications have been poorly supported in terms of studies and the supposed justifications have changed.

Ann Arbor holds itself out to be a progressive city and as such leadership should support policies that work with nature not against it.

Killing deer under these circumstances is not the right things to do.

With Kind Regards,

Thomas Paluchniak

When I dare to be powerful, to use my strength in the service of my vision, then it becomes less and less important whether I am afraid.— Audre Lorde

Hi Jen!

A bit delayed ...but wanted to thank you tenfold for the powerful and moving/affirming words at the city council a couple weeks. Truthfully, to be seen culturally in the public space, regardless of our privilege was transformational. We/I would love you to guest at our Main Event next week if you are available. Let me/us know!

Decky

The Jewish Federation of Greater Ann Arbor

2022 Main Event is Feb. 9th!

We'll be joined by [Dara Horn](#), author of ***People Love Dead Jews: Reports From a Haunted Present***

in conversation with EMU's [Marty Shichtman](#)

Registration for in-person tickets will close at 9:00am on Tuesday, February 1st.

To maintain COVID safety, we will be unable to accept walk-in attendees.

Please see below for all current COVID protocols!

Virtual registration will remain open until the day of the event.

[Register Now - Attend In Person or Virtually!](#)

Federation has put significant COVID precautions in place to maintain the health and safety of our community while still offering the opportunity to gather and connect in person.

COVID-19 Policies for In Person Attendees

Vaccination

- All in-person attendees must be fully vaccinated (**including booster shots**) against COVID-19 if medically eligible. You will be asked for the date of your most recent vaccination at the time of registration.
- Attendees will be asked to present an official, government-issued **vaccination card** or photo of the card listing the attendee's name and date(s) of vaccination to gain entry to the event.

Masks

- Masks must be worn at all times during the event except when actively eating and drinking.
- Attendees must wear surgical, KN95 or other similar masks. **Cloth masks will not be permitted.** We will have appropriate masks available for those who arrive without.
- Attendees will be asked to eat and drink only at their assigned tables to reduce close contact with masks off.

Other

- Anyone experiencing **symptoms** or who has **tested positive for COVID** in the last 10 days (even if asymptomatic) should plan to participate virtually.
- We are still evaluating what testing requirements, if any, will be put into place.
- The number of in-person attendees may be limited to make adequate social distancing possible.
- We will be unable to accept walk-in attendees.
- We are monitoring the situation closely and appreciate your understanding if adjustments are needed in response.

Good to get your perspective on this. I imagine it would help the city to know that a bikeway would be supported and utilized (I know several on Pomona who would similarly use it frequently). Any other recs though for how to amplify our voices on something like this?

Hi Chris.

The Miller/Catherine Bikeway would be absolutely amazing for the 5th Ward and our entire city. I am hopeful that even with only a portion on the total costs of constructing this project coming from ARF, there are additional funding sources to get this accomplished within the next 3-5 years.

Susan has been a early supporter and wonderful constituent, I have appreciated her support the last several years.

Best wishes
CM Ramlawi

Hi Ali,

I'm your Ward 5 neighbor at [REDACTED]. I filled out the stimulus funds survey yesterday and was wondering if there is any other way for folks like me to advocate for how we use the money? I think there are a LOT of worthy causes out there, but I hope we can find room for the Miller "bike highway" - would be an amazing benefit to our Ward, the west side in general, and the City as a whole. Please keep me posted!

Thanks,

Chris

p.s. I believe Susan Schmidt was a big backer of yours. I go way back with her and her kids,
