1/4 of a million dollars, we couldn't find anyone else to do this work? I am certain that we will not get 1/4 million dollars worth of information and planning out of this contract. Please stop wasting so much money on outside consultants.

Appreciate the internal hire, much better than paying a search firm to find someone who doesn't know anything

about the city.

Too many substantial changes to this document have been made without proper review from residents. There is no real benefit to this, other than to streamline the process developers use to exploit our land use guidelines. As much was said by our planning staff at the Ann ARbor Citizens Academy session 2 weeks ago. We DO NOT need to make it easier for developers to do their dirty work in Ann Arbor. I strongly oppose this change to our ordinances.

Same as above, unnecessary changes that appear to be designed to bundle together and slip by without proper review from the public substantive changes to our local laws. Not cool.

NOPE. No need to speculate on real estate with taxpayer money. If you were serious about even considering exercising this OPTION (not requirement, CM Grand) you would have set aside the amount from the original sale. But you didn't. The idea that this lot has somehow doubled in value is ridiculous, made more so by the fact that no actual assessment has been made public. I'm sure one of the council real estate cronies can forge an assessment to wave around. However, it is clear that this figure will not be based on the current allowed use of the site, but on a new, enlarged site plan that DOES NOT EXIST. As for those of you that would cry about lost opportunities, you didn't care one bit about that the first time you sold the lot, or when 5000 people asked you in writing NOT to sell the Library Lot, so that argument is looking suspiciously like political fodder for your re-election campaigns. Stop playing politics with our money, DO NOT buy back a lot embroiled in litigation.

Backed by the full faith and credit of the People of Ann Arbor.

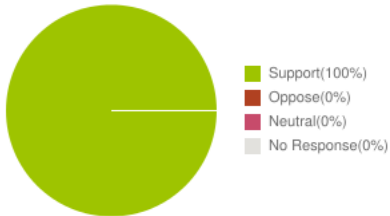

Not OK with this. I have not spoken to one single person who supports this, once they are told about the real estate scheming going on at city hall. How about this; those of you who support this idea, who insist this is a sure thing - head over to a bank and take out a joint loan for \$4.2 million dollars and exercise the option yourselves. If you wouldn't consider doing that with your own money, why would you consider doing it with OUR money?

Stop playing Real Estate Tycoon and gambling with our children's futures. It's disgusting behavior, those of you

who would gamble the public's money on private real estate investments are in violation of their fiduciary responsibility. It's not like we have \$4.2 million burning a hole in our pockets, this is BORROWING at interest TO SPECULATE, do you understand that? Would a financial advisor approve of this behavior? It's my "full faith and credit" on the line here, DON'T DO IT.

Yes, limit them. It's too much, I feel the same way about the DDA Liquor Licenses. There should be reasonable limits set on certain commercial activities, and having unlimited dispensaries every 600 feet is not reasonable. CM Ackerman argued that the zoning would limit them, but clearly it has not. Back to the drawing board please.
