Subject: Proposed Comprehensive Plan

To the Planning Commission:

I am a 26-year resident of Ann Arbor and am extremely concerned by and upset to hear about the "Comprehensive Plan," which I only recently learned about. Why have I and so many others just learned about this, a proposed huge change to our city? The lack of transparency and the apparent driving role of people in real estate and development is extremely concerning. I have read some of the criticisms of the plan, especially its impact on infrastructure and property taxes, as well as its minimal impact on affordable housing, and these are quite convincing. You need to pause this and get more input and impartial, objective research.

Sincerely,

Susan J. Douglas
