**Subject:** Trinitas Housing

Dear Planning Commission:

When I purchased a house at 2373 Hilldale and learned shortly afterwards that the Trinitas plan appeared to be going through, I shrugged and figured it would be an inevitable loss of value of my new property. But now that I have spent time in the neighborhood I also am realizing what an exceptionally close knit area it is. Huron Highlands is composed of people who care deeply not only for their neighborhood but also for the larger Ann Arbor community. And now that I occasionally pick up grandchildren from the STEAM school, I also realize how congested the traffic there ALREADY is.

The Pontiac area does not need a crowded new development primarily of undergrad students. Please reconsider any plans to promote growth of this type in the area.

Sincerely,

Kris D. Jensen  
2373 Hilldale
