

Mayor Taylor, Council members Anglin, Briere, Grand, Lumm,
Planning Commission, PAC, NAP.

We have recently asked you to envision The South Geddes Pond Art Park at Huron River Drive, across from the headquarters of NAP.

These articles suggest the many ways citizens will interact with and enjoy the ever-changing art works, special events, and stewardship opportunities at SGPAP.

Everyone will have a new appreciation of the importance of your advocacy and work in providing this source of economic potential; and for saving a unique topographical site of field, forest, wetland, pond and river within the city of Ann Arbor.

I hope you will let yourself imagine this beautiful possibility and help us make it a reality.
