

## Proposal for Ceiling Cassette Unit and VVT Dampers & Controls Installation Ann Arbor fire station

**Date:** 03/21/2025

**Prepared For:** Michaelyn Rogers

**Prepared By:** Kyle Bowman

### Scope of Work

We propose to furnish and install a ceiling cassette unit along with VVT dampers and controls as per project specifications. Our scope includes:

- Supply and installation of one (1) ceiling cassette unit
- Installation of VVT dampers and associated controls
- Integration of controls for optimized system performance
- Testing and verification of system functionality

### Pricing

The total cost for this project is as follows:

| Description           | Cost                |
|-----------------------|---------------------|
| Materials & Equipment | \$9,405.52          |
| Labor                 | \$7,146.51          |
| Control Work          | \$15,500.00         |
| Bonding               | \$ 1,150.00         |
| <b>Total</b>          | <b>\$ 33,202.03</b> |

### Exclusions

The following items are not included in this proposal:

- Ceiling grid removal and reinstallation
- Roofing work
- Structural steel modifications
- Electrical work
- Off-hours, overtime, or weekend labor
- Lead or asbestos abatement

## Terms & Conditions

- Any additional work outside the specified scope will require a change order.
- This proposal is valid for 30 days from the date of issuance.
- Work will be scheduled upon receipt of a signed agreement and applicable permits.
- Please review the proposal and let us know if you have any questions. We look forward to working with you.

## Best Regards,
