Dear Planning Commission and Staff,

Congratulations on nearing the end of the very long Comprehensive Land Use Plan process. It's so nice to see this third draft looking very good. As someone who advocates for organizations to rely on data and research in their planning, I especially appreciate the finished Appendix.

After more than 30 months since we started down the path, it is time for us to move forward together as a city. We can begin to put the segregationist, exclusionary maps of the past behind us. By adopting this visionary document for 2050, we can embrace the more difficult work to make housing in Ann Arbor more just.

Please send the Plan to Council this week.

Thank you,

Greg Matthews
