

**Zoning Board of Appeals
November 15, 2017 Regular Meeting**

STAFF REPORT

Subject: ZBA17-031, 621 Madison Place

Summary:

Onna Solomon, property owner, is requesting a variance from Chapter 55 Zoning Section 5:28 (Area, Height and Placement regulations). Applicant is seeking to construct a 13 foot by 18 foot addition to the rear of the existing residence that will be 20 feet from the rear property line. The property is zoned R1C and requires a rear yard setback of 30 feet, therefore, a ten (10) foot variance will be required.

Background:

The property is zoned R1C, single-family residential, and is located between South Seventh Street and Eberwhite Elementary school. The home was built in 1948 and is approximately 1,224 square feet in size.

Description:

The new addition will contain an entryway and mudroom along with a dining area for an approximate total of 260 square feet on the first floor. The second floor will be 125 square feet and will accommodate a new closet for an existing bedroom and a new bathtub for an existing bathroom. The combined square footage of both floors will be 385 square feet.

Standards for Approval- Variance

The Zoning Board of Appeals has all the power granted by State law and by Section 5:99, Application of the Variance Power from the City of Ann Arbor Zoning Ordinance. The following criteria shall apply:

- (a). *That the alleged hardships or practical difficulties, or both, are exceptional and peculiar to the property of the person requesting the variance, and result from conditions which do not exist generally throughout the city.***

The applicants state that the addition and renovation to the residence will result in improved access and modernization to the back entryway to the home. Without the variance, much needed repairs to the wood deck and windows will not move forward.

- (b). *That the alleged hardships are practical difficulties, or both, which will result from a failure to grant the variance, include substantially more than mere inconvenience, inability to attain a higher financial return or both.***

The front entrance to the home is farther than the rear entrance and is halfway down a steeply sloped drive that presents access challenges in poor weather conditions. The home is also small and lacks key necessities for this growing family.

- (c). ***That allowing the variance will result in substantial justice being done, considering the public benefits intended to be secured by this Chapter, the individual hardships that will be suffered by a failure of the Board to grant a variance, and the rights of others whose property would be affected by the allowance of the variance.***

The applicants state the variance will have little impact on surrounding properties as detached garages and vegetation help eliminate any visual impacts that the addition may have.

- (d). ***That the conditions and circumstances on which the variance request is based shall not be a self-imposed hardship or practical difficulty.***

The applicants contend that the variance request is not self-imposed as the front yard has topography and sloping issues. The back of the house currently is located almost to the 30 foot rear setback which would require a variance with any type of addition.

- (e). ***A variance approved shall be the minimum variance that will make possible a reasonable use of the land or structure.***

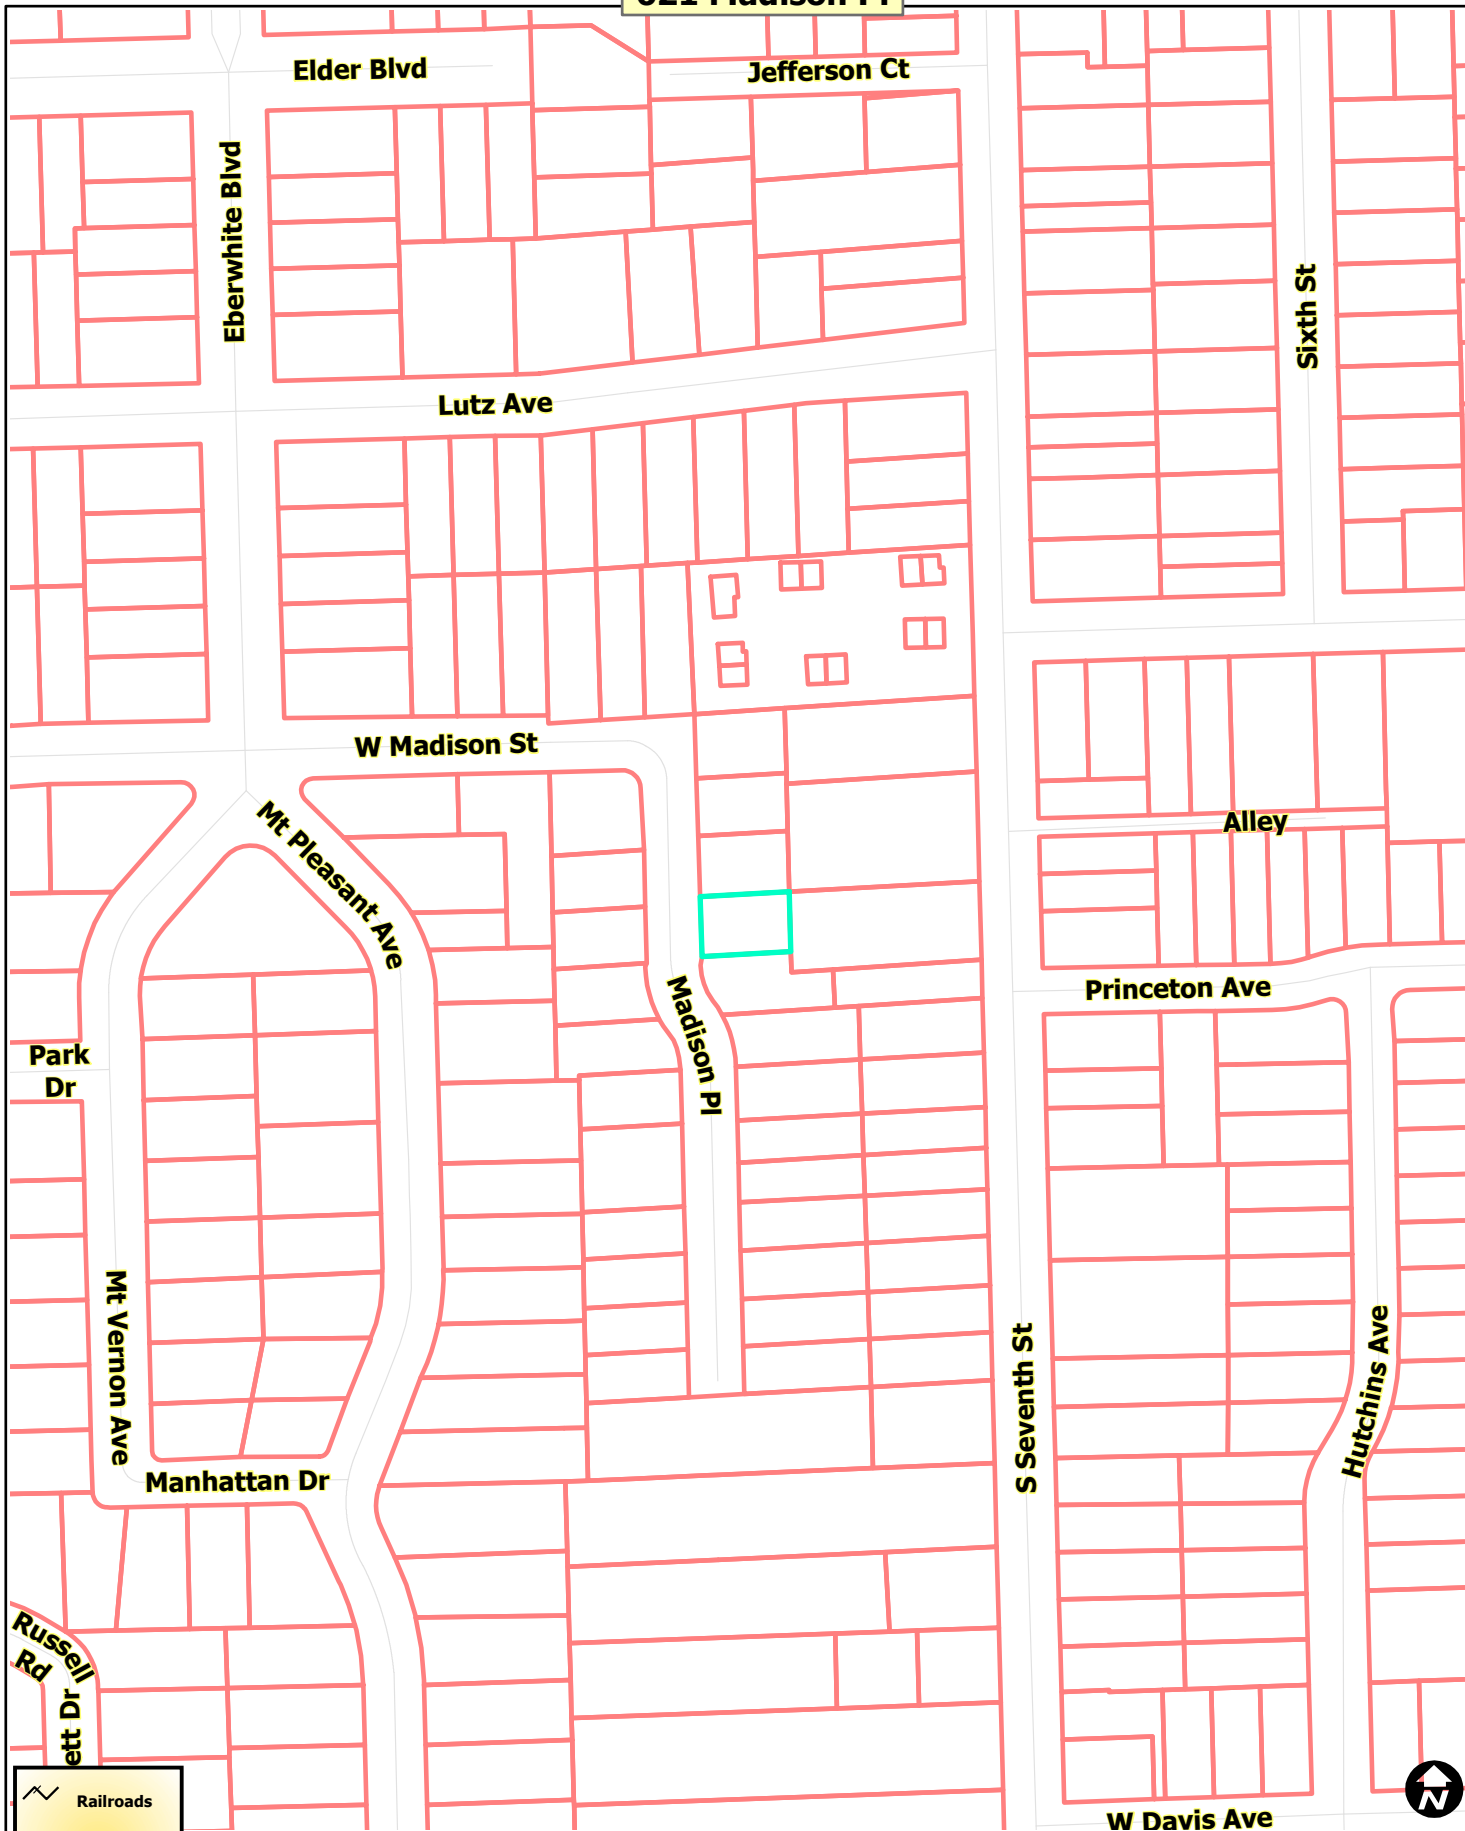

The variance requested is for ten (10) feet or 33 percent of the total rear yard setback requirement. The applicants state that this is a minimal request and still affords them the opportunity to make a reasonable use of the land.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "Jon Barrett". The signature is stylized with large loops and a cursive script.

Section 1 - VARIANCE REQUEST con't

The City of Ann Arbor Zoning Board of Appeals has the powers granted by State law and City Code Chapter 55, Section 5:98. A variance may be granted by the Zoning Board of Appeals only in cases involving practical difficulties or unnecessary hardships when **ALL** of the following is found **TRUE**. Please provide a complete response to each item below. These responses, together with the required materials in Section 5 of this application, will form the basis for evaluation of the request by staff and the Zoning Board of Appeals.

1. That the alleged hardships or practical difficulties, or both, are exceptional and peculiar to the property of the person requesting the variance, and result from conditions which do not exist generally throughout the city.

Please see document
attached

2. That the alleged hardships are practical difficulties, or both, which will result from a failure to grant the variance, include substantially more than mere inconvenience, inability to attain a higher financial return, or both.

Please see document attached

3. That allowing the variance will result in substantial justice being done, considering the public benefits intended to be secured by this chapter, the individual hardships that will be suffered by a failure of the board to grant a variance, and the rights of others whose property would be affected by the allowance of the variance.

Please see document attached

4. That the conditions and circumstances on which the variance request is based shall not be a self-imposed hardship or practical difficulty.

Please see document attached

5. A variance approved shall be the minimum variance that will make possible a reasonable use of the land or structure.

Please see document attached

Section 2 – ALTERATION TO A NON-CONFORMING STRUCTURE

Current Use of the Property:

The proposed change is allowed in accordance with Structure Non-Conformance, Section 5:87 (1) (a) & (b), which reads as follows:

(1) A non-conforming structure may be maintained or restored, but no alteration shall be made to a non-conforming structure unless one of the following conditions is met:

- a. The alteration is approved by the Zoning Board of Appeals upon finding that it complies as nearly as practicable with the requirements of this Chapter and that it will not have a detrimental effect on neighboring property.
- b. The alteration conforms to all the requirements of this Chapter and is made to a building which will be a single-family dwelling on completion of the alteration and is located in an R1, R2, R3, or R4 district.
- c. The structure is considered non-conforming due to the following reasons.

REQUIREMENT	EXISTING CONDITION	CODE REQUIREMENT
Lot Area		
Lot Width		
Floor Area Ratio		
Open Space Ratio		
Setbacks		
Parking		
Landscaping		
Other		

Describe the proposed alterations and state why you are requesting this approval:

The alteration complies as nearly as is practicable with the requirements of the Chapter and will not have a detrimental effect on neighboring property for the following reasons:

**ZONING BOARD OF APPEALS

Section 2 – ALTERATION TO A NON-CONFORMING STRUCTURE

Wherefore, Petitioner requests that permission be granted from the above named Chapter and Section of the Ann Arbor City Code in order to permit:

REQUIRED MATERIALS

The following materials are required for **ALL** variance requests. Failure to provide these materials will result in an incomplete application and will delay staff review and Zoning Board of Appeals consideration of the request. The materials listed below must accompany the application and constitute an inseparable part of the application.

All materials must be provided on 8 ½" by 11" sheets:

- One (1) hardcopy and one (1) electronic copy shall be submitted.
 - The electronic copy shall include all associated supporting documentation with application submission.
- Survey of the property including all existing and proposed structures, dimensions of property, and area of property.
 - Building floor plans showing interior rooms, including dimensions.
 - Photographs of the property and any existing buildings involved in the request.
 - Any other graphic or written materials that support the request.

ACKNOWLEDGEMENT

I, the applicant, hereby request a variance from the above named Chapter (s) and Section (s) of the Ann Arbor City Code for the stated reasons, in accordance with the materials attached hereto.

Phone number: 734-645-9918

Signature: X

Email address: onnalyng@gmail.com

Print Name: Onna Solomon

I, applicant, hereby depose and say that all the aforementioned statements, and the statements contained in the materials submitted herewith, as true and correct.

Signature

Further, I hereby give the City of Ann Arbor Planning and Development Services unit staff and members of the Zoning Board of Appeals permission to access the subject property for the purpose of reviewing my variance request.

Signature

Variance Application for 621 Madison Place, Ann Arbor, MI 48103
Owner: Onna Solomon & Jonathan Schwartz

Section 1:

Give a detailed description of the work you are proposing and why it will require a variance:

- Our proposed one story light-wood framed **addition will extend thirteen feet** east into the fenced-in backyard and occupy the space currently occupied by a wood deck. The south facade is angled at 15 degrees east of south to maximize solar exposure and preserve yard space--thus reducing energy used to heat in the winter and maintaining outdoor play space. The massing will be minimal in profile to remain unseen from Madison Place and the neighboring yards. The addition will contain a mudroom to provide a safe space for changing and storing winter apparel at the house's primary entrance as well as additional living space to accommodate the needs of two growing children. The second level portion of the addition will reclaim existing attic area to add walk-in closet space, and will *not* extend into the requested variance. With this small addition we can alleviate the house's practical difficulties and unsafe functionality while maintaining the neighborhood scale and character.
- The existing rear yard setback is 30' and **this project requests a 10' rear yard setback variance, making the requested rear yard setback 20'**. The 10' variance is the minimal amount of space necessary to provide the entry and mudroom's functional requirements while proportionally fitting with the existing neighborhood, house, and yard.

1. That the alleged hardships or practical difficulties, or both, are exceptional and peculiar to the property of the person requesting the variance, and result from conditions which do not exist generally throughout the city.

- The plan for an addition and renovation to the house aims to solve multiple problems, hardships and practical difficulties that are peculiar to the property:
 - Replace a decade-old deck that is in bad disrepair
 - Replace windows and doors that have rotting wood
 - Improve and modernize the back entryway, which serves as the main entry into the house for our family with small children
 - Provide a safe, functional space to change in and out of outdoor gear in the winter and rain
 - Increase living space to accommodate our family's needs

2. That the alleged hardships or practical difficulties, or both, which will result from a failure to grant the variance, include substantially more than mere inconvenience, inability to attain a higher financial return, or both.

- The main entrance to our home is in the rear of the house, directly into a small galley kitchen. In winter and in wet weather, **this entrance is hazardous**; we and our two young children will stand in the middle of the kitchen to take off all of our wet things, and we need to mop our kitchen floor several times per day to remove slip hazards, salt, and other debris from the outdoors.
- The front entrance sits far from the garage, halfway down a steeply sloped drive that is slippery in bad weather; stairs connect the driveway to the front of the house. We rely on the back door, which is at the same grade as the entrance to the garage; the short walk from the garage to the back door is an advantage in bad weather. Our renovation would allow us to make this the main functional entrance into our home.
- Our common living space on the first floor of our home is quite small, and **with two growing children, we have discovered the need for more space**. No less important, when our extended family, neighbors, or our kids' friends drop by our house, there is little room to move around freely.
- In sum, this addition would solve both the issue of safe entry and the issue of small common living space.

3. That allowing the variance will result in substantial justice being done, considering the public benefits intended to be secured by this chapter, the individual hardships that will be suffered by a failure of the board to grant a variance, and the rights of others whose property would be affected by the allowance of the variance.

- The variance will **allow our growing family to comfortably and safely stay in our beloved home and neighborhood**, where we have created a rich community. We believe that the variance will have little to no effect on the neighboring properties, as the view to the addition will be blocked on both sides by detached garages. Nearest the addition, our neighbor's garage extends further than the variance, and on the far side of our lot, our own garage will block the view our other next-door neighbors would have. One reason we are seeking the variance is because it allows us to **pursue renovations that will keep the aesthetic of the neighboring properties** and be the least disruptive way to solve the problems at hand. (Please see **neighbors' letters of support** included.)

4. That the conditions and circumstances on which the variance request is based shall not be a self-imposed hardship or practical difficulty.

- The condition is not self-imposed; rather, the existing house sits quite close to the rear 30' setback line such that, without this variance, we would not be able to add a small room and renovated rear entrance to the structure. The grade drops steeply in the front yard, making the transition from the garage to the front door treacherous during inclement weather. This condition is a result of the design and build of the original house, which was constructed in 1948.

5. A variance approved shall be the minimum variance that will make possible a reasonable use of the land or structure.

- We do believe that this variance is the minimum variance that will make possible a reasonable use of the land and existing structure of our home. In order to add an extra room that honors the architectural style and proportions of our original 1948 home, we believe that **adding a room that is 13' x 18'** is ideal, as this additional room would solve both our space and entrance issues. This addition will also allow us to retain the usable backyard space we currently have, as our addition will fill the footprint of wooden deck that is currently in place (and in disrepair).
- The original structure, built in 1948, sits only four feet from the 30' setback line in the rear of the house. This setback naturally limits our ability to build outward. A four-foot addition would not solve either the cramped living space or the poor main entry issues we face in our current home.

Subject: neighbor support for addition to home at 621 Madison Place

Dear Members of the Ann Arbor Zoning Board of Appeals:

My name is Naomi Levin and I live at 626 Madison Place, the house directly across the street from Onna Solomon and Jonathan Schwartz at 621 Madison Place.

Onna and Jonathan have shown me the plans for the addition to their home and I am writing to say that I have no concerns about the project. My husband and I support the approval of their request for a variance.

Sincerely,

Naomi Levin
626 Madison Place
Ann Arbor, MI 48103

Dear Members of the Ann Arbor Zoning Board of Appeals:

My name is Beth Skinner and I live at [627 Madison Place](#), the house next door to Onna Solomon and Jonathan Schwartz at 621 Madison Place.

Onna and Jonathan have shown me the plans for the addition to the back of their home and I have no concerns about the construction. I would barely be able to see the new structure from my home. The plan seems to fit in with the houses in the neighborhood. I fully support the approval of their request for a variance.

Please don't hesitate to contact me if needed.

Sincerely,

Beth Skinner

Subject: zoning variance for 621 Madison Place

Dear Ms. VanderLugt,

My name is Kris Steinhoff, and my family and I live at 615 Madison Place, the house next door to Onna Solomon and Jonathan Schwartz at 621 Madison Place.

I am writing to convey my full support of the Solomon-Schwartz's renovation plans. We have seen the plans for the addition and we feel that the renovation would have little to no impact on our enjoyment of our own home and property. The Solomon-Schwartz plan is modest and, my family and I strongly encourage you to approve this variance application.

Thank you for your time and consideration!

best

-kris

Subject: Request for Variance 621 Madison Place

Jon,

My wife and I reside at 622 S. Seventh Street and our lot abuts 621 Madison Place from the rear. We met with the couple requesting the variance this evening and they were kind enough to share their plans with us.

After seeing their plans, my wife and I would have no objections to the granting of this variance. If you require anything further or of a more formal nature, please let me know.

Thank you.

Richard Platte, Jr.
