SAFETY NOTES

Safety Update *Opioid Epidemic.*

Nationally the Opioid Epidemic is still heavily impacting the members of our communities from all walks of life. 2025 Washtenaw County has a decrease of 36% compared to the same period last year, marking the County to be in a positive decline for overdose deaths for the year. One strategy that has contributed to this decline has been efforts to educate and encourage residents to carry Naloxone (brand name Narcan) in the same way that we encourage CPR training. Across the County there has been an increase in the availability of Naloxone with the implementation of vending machines and newspaper boxes for distribution by various agencies. Through the Supportive Connections Program, the City of Ann Arbor provides Opioid awareness and Naloxone trainings and distributes Naloxone directly to the community.

Last year Supportive Connections installed the purple "Barney Boxes" in the parking structures and parks across the City for widespread Naloxone distribution. In their first year alone the City of Ann Arbor was able to distribute 2946 kits given out to the residents of Ann Arbor. To date, the Supportive Connections has already seen 1498 Naloxone Kits make it into the hands of residents in the months of March and April alone. The City of Ann Arbor is on track to more than triple Naloxone distribution in calendar year 2025. In addition to Naloxone, locking pill bottles, hygiene kits, and fentanyl testing kits are available in the vending machine in the City Hall vestibule. ***Thank you for making A2 Be Safe!***

Sustainable Energy Utility (SEU), an opt-in, supplemental community-owned energy utility that will provide 100% renewable energy from solar, battery storage, and networked geothermal systems installed at participating homes and businesses. Join us for the last Sustainability Forum of 2025 to hear from Missy Stults, Director of Ann Arbor’s Office of Sustainability and Innovations, as she discusses the SEU – what it is, what it isn’t, and what’s coming next!

- **New: The A²ZERO Heat Pump Concierge Platform:** OSI is delighted to announce our new A²ZERO Heat Pump Concierge, where users can input home information to generate initial heat pump system design options in a process that takes approximately five minutes. Together, this information aims to empower residents to choose the heat pump that’s right for them, including any and all necessary improvements that might be needed as part of transitioning from fossil gas heat to heat pumps. The entire process is free for Ann Arbor residents. Learn more at osi.a2gov.org/HeatPumpConcierge!
